Songs and POEMS

Let's Not, And Say We Did

CHORUS

We want, what they both have
 We wonder, what It'd be like
 We look, but we don't touch
 'Cept in our dreams every night
 We need, to feel wanted
 And we hate the lives we live
 You're married, and I'm broken-hearted
 So let's not, and say we did
 Well I think I've got a fever, and the moon must be full
 Because my blood-pressure's starting to boil
 The way you look at me girl, I know that smile
 One that I haven't seen in quite awhile
 Sure we want each other, so tired of the pain
 But we're lookin' for trouble if we ignite this flame
 We know what's wrong-n-right
 I'm a rebound, you're with him
 If there's no end in sight, Let's not... and say we did

CHORUS

Everybody's thinking what we're thinking 'bout
 What they think is up hasn't yet gone down
 So sick-n-tired of being tired and sick
 We're only guilty of being innocent
 We would have hell to pay givin' in to heaven
 But it's the only way with a crime of passion
 I'd love to taste your kiss, it's so HARD to resist
 We could walk away from this?
 But let's not, and say we did

Repeat CHORUS

I Need To Know

How does it feel to be wanted
 I really want to know
 How does it feel to turn down a kiss
 Or not wanting someone to hold
 How does it feel to be everything
 To a man that loves you so
 How does it feel to just turn away
 And how does it feel to be so cold

CHORUS

I need to know was it for fun
 'Cause it surely wasn't for keeps
 I guess you know just what you've done
 It sure is so hard to believe
 That I was just a phase in your life
 And now I'm just a memory
 I need to know just what it's like
 For you to do what you did to me
 How does it feel to understand
 I really want to know
 How does it feel to have all the answers
 Or to be able to just let go
 How does it feel to be a dream
 To the one I'm thinking of
 How does it feel to just walk away
 And how does it feel to be loved

Repeat CHORUS

Bridge

I need to know just what it's like
 And what was on your mind
 I need to know, I need to know
 I just really need to know

The Furthest Thing from My Mind

You burnt the bridge that lies between us
 You built the wall that stands in our way
 You've turned the table on our love
 And broken every promise you made
 You said the things that tore me apart
 And turned your back on wrong and wright
 So from the very bottom of my heart
 You're the furthest thing from my mind

CHORUS

The furthest thing from my mind
 And the last thing in my thoughts
 I never thought that I'd survive
 But I made it at all cost
 Told you one day that you'd regret
 Your leaving me and far behind
 Now the closest you'll ever get
 Is the furthest thing from my mind
 Burnin' your candle at both ends
 Want your piece o' cake and eat it too
 Promised me the stars and the heavens
 Then broke the ties that bind me to you
 I can't touch or hold a memory
 So forgetting you just suits me fine
 Ain't it funny how close we used to be
 Now you're the furthest from my mind

Repeat CHORUS

You've Gotten Me Confused (With Someone That Cares)

CHORUS

You've gotten me confused
 With someone that cares
 After all you've put me through
 All the heartaches and all the tears
 You treated me like a joke
 Hell you laughed right in my face
 And my life went up in smoke
 I was just a waste of space
 You treated me like a fool
 You put my love on a shelf
 But now you got me confused
 With someone else
 You said we were a mistake
 For years you messed with my mind
 Now it's just too little, it's too late
 I'm not a waste of time
 You treated me like a clown
 Now you tell me that you care
 But I'm not clowning around
 Dontcha tell me what is and isn't fair

CHORUS

Hell is what you put me through
 I gave in when you gave up
 All the things you used to do
 But you never gave me love
 It's nice you're hurting too
 And you feel some of the pain
 But I would rather miss you
 Than go through it all again

CHORUS

Bridge

Time you took a long look
 Took a look in the mirror
 You've gotten me confused
 With someone that cares
 With someone that cares

U.P.S. My Heart

Humpty-Dumpty had a great fall
 But not as hard as my heart
 And in my rush to leave your life
 It's the only thing that I forgot
 Just like the Tin-man in Kansas
 I'm also without a heart
 And I'm gonna need it back
 If I'm to make a new start

CHORUS

So U.P.S. the pieces send what's left to me
 Yeah, U.P.S. my heart-send it back to me
 Don't worry 'bout a return address
 You can send it C.O.D.
 Doesn't have to be special delivery
 Doesn't have to be marked with T.L.C.
 Just U.P.S. my heart, send it A.S.A.P.
 Yeah, U.P.S. my heart, send what's left to me
 U.P.S. my heart, send it back to me
 Like Houdini, our love disappeared
 Unlike Einstein, I wasn't thinking clear
 I don't know where my head is
 But I know where my heart is

Repeat CHORUS

You Put The Fire in My Flame

CHORUS

You put the fire in my flame
 Causing blood to boil in my veins
 You put the fire in my flame
 Every morning when I awake
 I feel you right there by my side
 Your body-heat keeps me warm
 And it makes my heart ignite
 Don't put it out, don't you put it out
 'Cause it keeps me satisfied

CHORUS

I'm a moth driven to your flame
 Makes me lose all of my control
 It's like a vol-ca-no
 Erupting deep within my soul
 (And don't you know that)

CHORUS

Light my candle, keep it lit all day
 First degree burns, but I don't feel any pain

CHORUS

Bridge

You put the fire in my flame
 You put the fire in my flame

Callin' Austin

Well it seems like it's been forever
 But it really hasn't been that long
 Since we went our separate ways
 She said two Wrights make a wrong
 Well I left state because she left me
 She said that she thought it'd be best
 To be happy she had to be free
 But she couldn't let our love rest

CHORUS

And now she's callin' Austin
 Tellin' me she wants me back
 Oh yes she's callin' Austin
 At least she knows where I'm at
 After she tore my world apart
 Now I've made a brand new start
 It seems she wants me back today
 But I like it here in Austin
 And Austin's where I'm gonna stay
 Well I knew one day my love would be missed
 Loneliness had taken my place
 And I knew that it would come to this
 She knows I could never be replaced
 Well she tried so hard, Lord knows she tried
 But she couldn't make it on her own
 And as she cried she heard a voice inside
 Telling her to pick up the phone

CHORUS twice

Bridge

But I like it here in Austin; I like it here in Austin
 And AUSTIN'S WHERE I'm a gonna stay

Love Me

Just some paper and a pen
 A love letter to my best friend
 Nothing more and nothing less
 No more strings and no more stress
 No lying and no crying
 No more trips and no more fighting

CHORUS

Just thought I'd send a note
 To let you know
 How much I miss you
 And that I love you so
 If you should ever need me
 I will be there
 Don't ever doubt me baby, or how much I care
 I hope that you're happy
 And that you're doing fine
 Just wanted to say hi
 And drop you a line...Love Me
 No more hurt and no more pain
 Just some words with nothin' to gain
 No more leash without control
 Only love straight from the soul
 No commitments or a chain
 No promises and no blame

CHORUS

Just a smile for awhile
 Yes I'll walk that extra mile
 No dreams, no future, no plans
 I don't need to understand
 No more fears and no tears
 No more talk of wasted years

CHORUS

Done Walkin' the Floor Over You

For many years I was blue
 I cried my heart out over you
 I never really did know why
 That you my love would say good-bye

CHORUS

Now I'm done walkin' the floor over you
 And all the nights of missing you
 I've found someone who loves me true
 Never again will I be blue
 I thought I'd die when you left
 For years I gave my best
 Too many times you were untrue
 My love's not good enough for you

CHORUS

Now I'm done walkin' the floor over you
 I've found someone to love me too
 I've promised her that I'd be true
 If you want me back too bad for you
 She gives me all I'll ever need
 And I never have to bleed
 I know she'll never be untrue
 'Cause she's so different than you

CHORUS

Now I'm done walkin' the floor over you
 These years with you have left me cold
 Now I have someone warm to hold
 I'd just as soon forget you
 You've set me free and now I've found
 Someone who wants to stay around
 Looks like my luck is back to stay
 I'm glad that you threw me away

CHORUS

Now I'm done walkin' the floor over you
 Now that I've done forgotten you
 She'll stand by me my whole life through
 I'll never again be with you

Bridge

Yes I hope forever you will be
 Walkin' the floor over me

Autumn Love

All around me I see so much beauty
 Orange, yellow and red are the colors of the leaves
 If I could turn back time
 To the autumn when we were together
 When we were so in love we thought we'd love forever
 Our love was the color of fire
 But all seasons change and tire
 What I've give just to know
 The wonders of Autumn Love
 Now our love is over and this season makes me blue
 But I know you're happy with him and his love is so true
 So now it's time to move on and accept that you're gone
 Love will find me once more and I'll learn to love again
 When once again the seasons change
 The clouds will clear and I'll live again
 And I'll hold, and yes I'll know
 The wonders of Autumn Love
 Yes we'll be together in the wonders of Autumn Love

Forever More

I've spent my whole life searching
 For that one special love to call my own
 And now that I found you I'll never let you go
 For I love you with all my heart and soul
 CHORUS
 Forever more I'll hold you like there's no tomorrow
 Forever more I'll give you a love you've never known
 If you'll put your hand in mine
 This heart will open wide
 And I'll give you all my love...Forever more
 My heart will never wander
 My eyes will never look for someone new
 For the love I give you is oh so true
 My heart would just be lost without you
 Darling, if we ever fuss or argue
 Our love is strong enough to see us through

We'll just open up our hearts
 And let love do its part
 So that once again the dream can start anew
 CHORUS
 Bridge
 Yes Darling, I'll give you all my love, forever more

I Miss

You're a goddess of love with a heavenly body
 You're a vision of warmth and my queen of queens
 You're a smile of hope and my heart's destiny
 You're all that I want; you're my dream of dreams
 CHORUS
 Yes I miss your body; yes I miss your smile
 And I want to hold you if only for awhile
 Yes I miss your touch, can never get enough
 And I miss your love and all the nights of lust
 You're everything that's right in a world so wrong
 You're my hungry thoughts throughout all time
 You're a million to one, and one of a kind
 Your hearts of gold and you're the holder of mine
 CHORUS
 Yes I think of you and all the things we used to do
 Your passionate kiss and making love to you
 Yes I miss the fun and all the dreams we had
 But what I miss the most is being your man
 You're all woman with a touch of lady
 You are special and always in my heart
 You're the answers to all of my questions
 You're my change and my whole new start
 CHORUS
 Yes I miss your touch, can never get enough
 Yes I miss your love and all the nights of lust
 Yes I think of you and things we used to do
 Your passionate kiss and making love to you
 Bridge
 I miss your passionate kiss, and making love to you

Beauty Is In the Eye of the Beholder

God bless your momma and daddy
 You are a masterpiece
 Oh yes, you're a work of art
 From your head to your feet
 Never seen a girl so fine
 Can't keep my eyes off of you
 I could spend my life Honey
 With the likes of you

CHORUS

Beauty is in the eye of the beholder
 And baby, I want to be holdin' you
 I've never really seen an angel before
 I must have died and gone to heaven too
 If my hands were like my eyes
 They'd be all over you
 No I can't help myself
 Staring the way that I do
 Girl if you could read my mind
 Sure hope you don't blame me
 You must be God's gift to man
 With that heavenly body

CHORUS

You definitely look sweet
 And I've gotta sweet-tooth
 All this isn't just a line
 It's nothing but the truth
 The first time that I saw you
 I had to pinch myself
 Had to make a double-take
 With the way that I felt
 You know with those curves of yours
 You ought to wear a sign
 And the sign should read
 Staring will make you blind
 'Cause I must be, can't believe
 Surely you can't be real

I'm seeing things, you're a dream
 With the way you make me feel

CHORUS twice

In the Doghouse

CHORUS

I was out late again with a friend
 And I knew I'd be in trouble all right
 I looked like something that the cat dragged in
 But I'll be in the doghouse tonight
 Oh drunk as a skunk and loose as a goose
 And I felt like a pig that could fly
 Looked like something that the cat dragged in
 But I'll be in the doghouse tonight
 She doesn't want an apology
 Hell she's not even talking to me
 I tried to tell her it ain't what it seems
 But that girl of mine just ain't listening
 She said sleep with that flea-bitten animal
 But there wasn't room for the dog and me
 I said, "Honey let's be reasonable"
 So she let the dog in and said, "Sweet-dreams"

CHORUS

About that time it started to rain
 And it's a fact I drank myself blind
 But I have no one but me to blame
 As she gave me a push and said good night
 I'm really starting to resent that hound
 Because he's inside where I should be
 Now everything started spinning around
 And from the door I heard her say to me
 You were out late again...

CHORUS

Cloud 9

Feel like flying high... in my mind
 Getting stoned all alone, and feeling alright
 Euphoria... you just can't hide
 A nirvana... like your very first time
 A Utopia, you know it tastes so sweet
 And yet it still makes me hungry
 I look up in the sky-I'm so high
 Is that the cloud with the silver-lining?
 It must be

CHORUS

Cloud 9, like we're floating on air
 Cloud 9, like swimming naked and bare
 Cloud 9, like the taste of your first kiss
 Cloud 9, like hearing a song that you've miss
 I turn the music way up high
 Text my friends, tell 'em to swing on by
 Next they're inside... getting fried
 And now we're all feelin' fine!
 If this is how you get to space
 Then I guess this makes me an Ace
 I look up in the sky- I'm so high
 Is that the cloud with the silver-lining?
 It must be... Cloud 9

CHORUS

Fell like flying high... in my mind
 We're getting stoned to the bone
 And feeling, alright
 Euphoria... we just can't hide
 A nirvana... like the very first time
 A Utopia, you know it tastes so sweet
 And yet it still makes me hungry
 Is that the cloud with the silver-lining?
 It must be

CHORUS

Bridge

Looks like Ethan's doin' the zombie
 And Jacobs doin' the Frankenstein
 We seem to be dancing... on Cloud 9

She's Cheyenne and I'm Too, Too Shy

Too, too shy for love and affection
 Scared of these feelings and rejection
 Shaking and having trouble breathing
 Well I hate to see her go, but I love to watch her leaving

CHORUS

My sweats go palmy and my weak go knees
 (my palms go sweaty and my knees go weak)
 My beat skips a heart, man I can't speak
 (my heart skips a beat, etc.)
 My trembling are hands, can't night at sleep
 Hyperventilating, gotta cool my keep
 She's Cheyenne and I'm too, too shy
 She's Cheyenne, and I'm too, too shy
 She's Cheyenne and I'm too, too shy
 A lil' hazy... in the hallway
 In slow motion she looks my way
 Calls my name so I walk over
 Not too close so she comes closer, and closer!
 CHORUS twice

Veronika from Holland

Let's talk about her charm
 She can put on a show
 She can dance on the bar
 She can slide down a pole
 She's an exchange student
 From the sweet Netherlands
 Her girlfriends say she blew it
 But she don't give an Amsterdam
 Victoria Secrets ain't got nothin' on her
 She glistens as she walks
 Like a cheerleader

CHORUS

Veronika... Veronika
 Veronika from Holland
 Lead

When she is up on the stage
 She likes it when you watch
 She ain't wearin' a thang
 Except some, dental floss
 She loves to walk the dog
 She loves to ride the bull
 She leaps just like a frog
 She loves to take it all
 She sure ain't Mrs. Right
 She ain't the girl next door
 Do it to it all night
 She breaks me makes me poor

CHORUS & drum solo

Wo Wo Wo! She's got milk
 Wooden shoes on her feet
 Yeah her legs are like silk
 I'm gettin' in too deep
 Pretty lips, pretty mouth
 Satisfaction guaranteed
 Says she wants to go south
 And she's from the North Sea
 Redhead, blonde or brunette
 Surprises me sometimes
 Pretends to be upset
 Because she knows I love Cat-fights

CHORUS

Playboy smile, bedroom eyes
 Tight red-n-black short skirt
 Viagra chest, soft thighs
 She claims that she doesn't flirt
 Veronika... Veronika...
 Veronika's callin', fallin'
 Ballin', crawlin', yeah
 Veronika from Holland
 Veronika... Veronika
 Veronika from Holland, Yeah

Suckin' Face

Bri and Krikrit doin' 95 in a 45 mile zone
 They did nothin' but get high on life
 And right now they were pretty stoned
 Bri said to Krikrit let's go to my place
 And I'll give you a little taste {Face}
 But let's make sure that we're all alone
 Because mine's a terrible thing to waste
 Then she said, this is me, this is me on you
 And just sayin' no only makes 'em turn blue
 She was audible, her volume on full
 And he was right on frackin' cue! HAH!

CHORUS

They were suckin' face all over the place
 Suckin' face, and on each other's case
 If there's a right time then it's right now
 And this is the right place... for suckin' face
 They were gettin' hot-n-heavy in the back of his Chevy
 And in a minute they were in her house
 He was kissin' her neck, he figured what the heck?
 He started working on her blouse
 Then they heard a car door, they both hit the floor
 That's when the telephone started to ring
 He went from a hard attack to a heart-attack
 They bumped heads and they couldn't think
 Just then, that is when
 Her parents came in and asked, what the hell's goin on
 That's when Krikrit started to ststststutter
 Her dad was big-n-tall, and pretty strong
 But Krikrit's mind was still in the gutter
 Quick thinkin' Bri asked if they were goin' to answer the phone
 And when her parents turned 'round,
 They were gone without a sound
 In a flash, the kids disappeared, they went somewhere
 Just to share some more suckin' face

CHORUS

Later on when Krikrit was leaving
 She said yes I guess that I'll see ya in school
 And give ya some attention later on in detention

“Cause that ass of a teacher ain’t nothin’ but a fool
 We can go to the back and I’ll sit on your lap
 And you can leave just a little drool
 ‘Cause I’m hot, you’re kool and we’ll be suckin’ face

Lead Guitar

You don’t approach a goat from the front
 Or a horse from the back
 Or the hot bright Sun from any side
 Don’t ask why, these are just the facts
 I said these are just the facts, don’t ask why
 This story’s ‘bout two young lovers
 With only one thing on their mind
 If you ever see one without the other
 Know that the other one ain’t far behind
 Krikit was hot-n-bothered by her sugar-n-spice
 Her body shaped like an hour-glass
 Really, really, really nice
 When they get together they felt they’d melt
 Just like fire and ice!

CHORUS

Just like Jack-n-Jill went up the hill to get their fill
 But he was only interested in her well
 Fe-fee-fi-fi-fo-fo-fumb, texting with their thumb
 Back-n-forth, to-n-fro, texting on their cell, LOL
 He played with fire-n-just like a vampire
 He always left his mark
 She was the jealous type, but her bite
 Was worse than her bark
 Well they were playin’ knix, knix-n-gettin’ their kicks
 And he was giving her doggie a bone
 When the trailer starts rockin’ don’t bother knockin’
 They’ll be froggin till the cows come home, moo
 He said that’s just fine if you got the time
 I wanna, wanna tongue dance with you alone!

CHORUS

She loved to dance, he loved havin’ fun
 Like Gene Simmons they loved to use their tongue
 He wanted her to believe that he’d never leave
 And that he’d always be there to share

He didn’t like her friends but always in the end
 She swore that she didn’t care
 They didn’t need Scooby doo, or those pesky kids
 Their love wasn’t much of a mystery
 They weren’t foolin’, they knew what they were doin’
 Best friends were part of their kisstory
 When they get goin, there’s no way of knowin’
 Where she begins and where he ends in

CHORUS

Bridge

Now the moral to this story has no reason or rhyme
 I hope I didn’t bore ya, but now I’m outta time

Ten Seconds to Love

It’s been a year since I saw my baby last
 We shed some tears and we had our share of laughs
 A month ago on the telephone
 She said that she wanted to see me {See Me}
 Tonight’s the night, we’ll make it right
 We both can’t wait for this evening {Evening}
 A week ago when she said hello
 She said that she really missed me {Missed Me}
 And yesterday all she had to say is
 She really, really wants to kiss me {Kiss Me}
 One hour to get home and shower
 Fifteen minutes to drive to her place
 Thirty seconds to knock on her door
 One minute to see her smiling face

CHORUS

Ten seconds to love, ten seconds to love
 She’s in my arms with her loving charms
 Our hearts become one
 Ten seconds, ten seconds, ten seconds to love

Go to Sleep Daddy

CHORUS

Go to sleep daddy, go to sleep
 Go to sleep daddy, go to sleep
 Go to sleep daddy, go to sleep
 Go to sleep, go to sleep daddy
 Well I could get me some lovin'
 If I could just sneak out
 My girl and I would be touchin'
 If my dad would just lay down
 We planned on the time, and the spot
 And daddy's not makin' it easy
 My baby's so bothered and hot
 And my baby's willing to please me
 Don't have a car, she's not that far
 And her note just says to meet me
 I could be back before the dawn
 If my daddy would just get sleepy

CHORUS

I daydream of her all of the time
 And we're ready to take the next turn
 Wrong or right, I wanna bump-n-grind
 If my daddy would just crash-n-burn
 I checked my breath and it's gettin' late
 I looked down the hall, lights still on
 I only hope that she will wait
 Soon as he's asleep I'll be gone

CHORUS

Lead

I wonder what she is wearing
 Her note just says to meet me
 All those kisses we should be sharing
 If only my dad would just get sleepy!

CHORUS

Liar, Liar

Say what you came here to say...then leave
 Whatever comes outta your mouth...I won't believe
 You blink...and you think that I'm naive
 Asked you once, say it again...leave
 Don't turn around or even look my way
 Full of bein' a fool so just walk away
 Don't give me that look or those eyes
 Your history's no mystery, it's all lies

CHORUS

Liar, liar...Pants on fire
 Liar, liar...Sick-n-tired
 No desire, for liar, liar
 Don't admire, liar, liar
 Days feel like years, it feels like a lifetime
 I've tasted tears, for the last time
 You're already just a memory
 So now go cry me a symphony
 Just go...I'd take it as a kindness
 You ho... Shakin' love is blindness
 Don't go... away mad just leave
 Would you still not be here if I said PLEASE?

CHORUS

Lead

Bridge

She only lies when her mouth opens up
 You know she's lying if she says the word love!

SUGAR

She's a sugar high, she's a sugar rush
 She looks so sweet, I think I've gotta crush
 Her kisses taste so good got me pingin' off the walls
 Think I'm an addict goin' through withdrawals
 She's a sugar rush, she's a sugar high
 I need some more to save a kiss good-bye
 I can kiss her from her head, kiss her to her toes
 If she's bad for me then that's the way it goes

CHORUS

Sugar...makes me go all night
 Sugar... one lump or two
 Sugar...makes me want to bite
 SHSHSUGAR- Sun up or when the moon is full
 When she kisses my neck I drop to my knees
 When she kisses any lower I yell P, P, P, Please
 She got me knockin' on her door, stickin' to the floor
 When I can't get enough I scream for MMMMMORE
 She tastes like candy-n-I think I gotta sweet-tooth
 She wets my appetite-n-Honey that's the truth
 I wanna eat her up, I wanna lick her down
 Don't wanna go nowhere just wanna go to town

CHORUS

ON- Sugar...Sweet-n-low
 Sugar... High-n-dry
 Sugar... makes me go, go, go

Blood-N-Iron (1986)

Starts out with...Our father who art in hell, hallowed,
 hallowed, hallowed- in a real deep voice

[Read Down]

Armageddon	Contract of eternal
Revelations	Darkness mixed with blood
You know its spreadin'	Evil ways are comin'
All across the nations	The world's out of love
I'm not a number	Seven good years
I'm no relation	And seven bad
What you have in mind	Gates of hell are open
You're sadly mistaken	Satin's hit the fan
No prayer from heaven	Hurt and fallen
Not a hope in hell	All hope vanished
And when it's all over	Spit in his eye
They'll be no one left to tell	With my last defiance
In his dominion	There'll be no warning
Devil's tattoo	There'll be no sign
Don't look at him	Imminent and inevitable
Or let him put one on you	Exhausted, out of time
Don't trust no one	When you least expect it
Don't turn your back	That's when the chase is through
Even your shadow	And as you stand before him
Will turn and attack	He'll put the mark on you

All the CHORUSES

Blood-n-iron, There's nowhere to run, Blood-n-iron
 Won't end till he's done, Blood-n-iron, nowhere to hide
 Blood-n-iron, He won't even let you die, Blood-n-iron
 Fearing for my soul, Blood-n-iron nowhere left to go
 Blood-n-iron, He's gonna take control, Blood-n-iron
 He'll penetrate your body, rip your flesh from your bones
 He'll terminate your mind, eat your heart-n-take your soul!

Lucy Fur

Nostradamus said that the world would end
 Book of revelations, Armageddon
 Everybody is living on the edge
 All life's turning into the living dead
 There she is but she isn't what she seems
 Living in a nightmare yet no one dreams
 Bringer of light surrounded by shadows
 Acting like a Saint, but she's not hallow

CHORUS

The mark of the beast, she swears a tattoo
 Pitchfork and tail, she swears it's a costume
 I asked her name, yeah Satan's daughter
 She smiled and said, I'm Lucy...Lucy Fur
 She's so hot she might burst into flames
 She likes disguises and playin' her games
 Don't look her in the eyes you'll go up in smoke
 You rebuke her-n-she laughs like it's a joke
 Tasting the ride of the apocalypse
 Waiting at night for the full moon's eclipse
 She's nocturnal; she keeps me in a daze
 Dark eternal, I'm deep within this maze
 Where's God's grace

CHORUS

The mark of the beast, soul food for the feast
 666, suicide you can't commit, no peace
 There's nowhere to run, there's nowhere to hide
 Coming for you, you can pray all you like

CHORUS

Pitchfork and tail, she said see you in hell
 She's a hell-raiser that you just can't bail
 Little Ms. Evil goin' deeper-n-deeper
 Devil's smile, her name is Lucy...Lucy Fur

CHORUS

She's a walkin', talkin' Black Sabbath
 Don't mistake her for some other bitch
 Her number is- 999-7734

K.A.W. the Warrior

(Written for my son; Kirk Austin Wright)

Well his fingers are bleedin'
 And his legs are sh, sh, sh, shakin'
 It's the rhythm that he's keepin'
 While the crowd keeps on takin' it
 He knows his band is tired
 The stage becomes ground-zero
 The crowd is like a live-wire
 They need a rock-n-roll hero
 It's time for...

CHORUS

K.A.W. the warrior, he can play all night
 K.A.W. the warrior, he does it just Wright
 Bending strings from the depths of his soul
 The energy he builds up makes him lose control
 K.A.W. the warrior comes from the crossroads
 It's amazing his guitar doesn't explode
 He plays his guitar like lightning
 His voice is thundering loud
 Authority cannot stand him
 But he's loved by the entire crowd
 Party's over but you need more
 He goes one, two, one, two, three, and four
 Lights come on deep in his core
 That's when he's all over the floor
 It's it's, it's

CHORUS

Chelsea

...chchchchChChChelsea
 Met a girl like maple syrup, all sticky-n-sweet
 She makes me walk the plank with her tight-ass jeans
 Like Davey Jones' locker, I must find the key
 She knows what I like If you know what I mean
 Well shiver me timbers, and blow me down
 She got me strung up, she got me strung out
 Feelin' like a pirate, on the shaky seas
 She's the eye of the storm
 And her name is ChChChChelsea

CHORUS

ChChChelsea...she's gotta boyfriend
 CHChelsea... He ain't nothin'
 Chelsea...gonna take his place
 Just like dynamite and a tidal wave, she blows me away
 I love the way she wiggles like waves upon the sea
 Makes me hoist the colors-n-she can be such a tease
 She's a treasure chest-n-her kisses are like gold
 No peg leg, no patch, but I stick to the code
 Fishnet stockings-n-a tan like a goddess
 My God she's the perfect woman, more or less
 You could say I've gotta lil' Captain-n-me
 She's the calm before the storm
 And her name is ChChChelsea

CHORUS

Chelsea...She's gotta boyfriend
 Chelsea... He's a chicken, of the sea
 So batten down your hatches and stick to your guns
 Thumbs up to love and war, and havin' fun

CHORUS

Chelsea... She's gotta boyfriend
 Chelsea... He ain't nothin'
 Chelsea... Gonna take his place
 Just like dynamite, she blows me away
 Just like a tidal wave, she blows me away

STAR-PEOPLE

As the stars align in the galaxy
 The planets align in the Milky-way
 On this day the people come back who were first
 For this is the way of the universe
 Lead

They call us the savages
 As they cut off our children's' heads
 And they call us the barbarians
 As they kill our women and steal our land
 It's survival of the fittest
 But the meek will inherit the Earth
 A lost cause before it begins
 A prophecy, a future lost at birth
 Sword to sword, and an eye for an eye
 This is the truth, and a tooth for tooth
 It's a number's game-n-it's for the win
 And as always, the invaded will lose

CHORUS

Star-People, here they come, you better run
 Star-People, See their might, you better hide
 First it's disease without prejudice
 A second from an atom's existence
 Third-world nations of second-class citizens
 Then the four-horsemen will lead the dead
 I Call...Upon... The Spirits
 To fight those in God they trust
 Oh Spirits won't you help your peoples
 From sacred to ashes to ashes-n-dust to dust
 Tomahawk Justice
 Bows-n-arrows verse bullets
 Warpath leads to massacre
 They bring genocide, they're merciless
 Lead
 Warriors verses Calvary
 And we are the warriors, yes we're still here
 You don't have to care, just let down your fear
 Our iron birds take the skies-n-defeat you

Whiteman payday, last man standing
 Victory, but you won't see this coming
 The Children of the Sun are now landing

CHORUS

Star-People, Here they come, you better hide
 Star-people, See our might, you better hide
 Whiteman used their code in the World War
 Now we'll use it against them from shore to shore
 Star-People, War paint in green and grey
 Star-People, Karma and Spirits have already won
 The truth doesn't need proof with the
 Star----- People
 The tanks are running all from
 The Orion heat-ray-gun
 We brought planet X near here to
 Turn North America towards the Sun
 Separated its first thirteen stars
 Flooded the streets with red, white-n-blue
 Space rock sunk their beaches too
 Rest of the world shocked by typhoon
 Earthquakes for heaven's sake
 Oceans red from the blood-rain
 B's triangle brings reinforcements
 Government's Capitol hides its shame
 First contact gone wrong at Roswell
 First aid on your way straight to hell
 Mutated contagion by alien
 Redman has tales to tell, oh well

CHORUS

The tenth A.I. launches all rockets
 Russia counters before the hits
 China's billions are on the fritz
 Jerusalem sets the stage for the evil trinity
 Dark clouds and starvation-n-locusts serenity
 No more fish in the sea of man's sterility
 12-21-12, Sol's equator brings solar flares
 Navajo's last tears for a thousand years

CHORUS

I Would Eat Her Up

The other day there was a knock at my door
 [Knock, knock, knock, knock]
 Or I should say, a knock-out and so much more
 Seen her before but always kept my distance
 Thought she was going to ask for assistance
 I figured for sure SHE had a boyfriend
 And fate was throwing ME to the lion's den
 Attractive and amazingly beautiful
 To have her so up close and personal
 She told me her truck's in front of my house
 She wore sprayed on jeans and a gorgeous blouse
 She was working on her truck, how hot is that?
 She was all bent over; I thought what an ass...et
 Oh, and the truck was probably handy too
 Then she literally asked me for a screw-ha, ha
 I found one and accidently touched her hand
 Dropped screws and nails, they all fell in the kitchen

CHORUS

Melted at her smile, what a wakeup call
 I could barely talk and that says it all
 Don't want to know her name and I think it's a shame
 Don't want her number, no, but I can't forget her
 All I know is I better not fall in love
 But if I was her truck, I would eat her up
 I'm cautious and I know I should resist her
 Is it rude to ask if she has a sister?
 Pretty and old enough to be my lover
 Is she happy where she's at I wonder
 There are so many things I shouldn't say
 That Redhead's a breath of fresh air today
 Couldn't help myself, I took another look
 Goosebumps from hell-N- I felt heaven shook
 A fallen Angel right in my front yard
 What am I going to do with my heart?

Repeat CHORUS

I blinked...and she was gone

And then I wrote...this amazing song
 Wished I'd let her know I didn't want her to go
 Who's to say what's right or wrong
 And she can park her truck in my yard
 My heart says anytime that she wants
 Too little, too late, now she's gone

Bridge

Can't get her off of my mind, can't fall in love
 And if I was her truck, I would eat her up!

You Got Me Goin' Again

Love broke me, it tore everything
 Shattered my very being, and
 It's hell living through all these things
 It can really mess with your head
 It can fill your life with dread
 Then you showed up out of nowhere
 And it was tough to care
 But your brown hair made all time stand still
 And staring into your brown eyes
 Made me begin to realize

CHORUS

Girl, you got me goin' again
 You got me thinkin' again
 Just when I thought I'd never feel this way again
 Oh, you got me lovin' again
 You got me goin' again
 You took me, even as damaged goods
 When nobody else would
 And all things happen as they should
 I'm having sensations again
 And I don't want them to end

CHORUS

What I feel I have felt before
 But you've given me more
 And it's heaven instead of a chore
 Girl, your smile brightens up my life
 It's so different this time

CHORUS

Girl, you got me goin' again
 You got me wanting again
 Just when I thought I'd never feel this way again
 Oh, you got me lovin' again
 You got me goin' again

L.O.V.E.

"Love" is just a word; it can be good or bad
 It can bring you joy, or it can make you mad
 It's all about trust, there can be no doubt
 It can break your heart, make you tear it out
 It's a leap of faith that can turn into bliss
 Or turn into hate with a flick of the switch
 It's an abstract thing that can make you sing
 Say it, fake it, make it, doesn't mean a thing
 Betrayal, broken promises, tears and rage
 Don't believe in destiny, don't believe in fate
 It can turn you, burn you, and make you yearn
 Lessons in life may hurt but you gotta learn

CHORUS

'L', is for the longing
 'O', is for the overall feelings you get
 'V', is for being vulnerable
 'E', is for eventually it will end
 I know that opposites they can attract
 Brings odds up on getting stabbed in the back
 It can be a phase, a mask, or a dream
 Can be devastating or amazing
 It can make you strong or make you weak
 Lying, crying, fighting if and when they cheat
 You can be a fool or you can be a clown
 Love's like gravity, it can bring you down
 It can be a bond or it can be cruel
 Love has no mercy and it can be a curse
 It can give you hope and so many feelings
 Yeah it can make you do all sorts of things

"Forever", is just another word that starts with 'F'
 Like the word fair which also has FOUR letters in it?

CHORUS

-Bridge
 L-O-V-E
 Can make you happy or bring you misery
 So Good-Luck...

Weight of the World

Highway to hell or stairway to heaven
 Creation or evolution
 Violence doesn't exist by itself
 It's intertwined with the lie
 Do you believe in a soul or is it in time?

CHORUS

It's easier to close your eyes
 And it's a long way till daylight
 Monkey's on my back
 Chip's on my shoulder
 Too much on my mind
 Weight of the world's on me
 Close your eyes or wait on daylight
 Hells bells or Angel's prayers
 We're all zeroes and ones or ones and zeroes
 Good or evil, we're villains or heroes
 It's either darkness or its light
 But you can't have one without the other

CHORUS

(Then repeat 'close your eyes or wait till daylight'
 eight times and then end the song with)
 You got to choose, win or lose
 It's the weight of the world on me

Kid Rocker

I ain't the fireman, ain't the cat in the hat
 I'm not Ironman-N-I don't dress like a bat
 I don't have a problem with authority
 But it seems at times they have one with me
 I'm not the poster boy for the perfect kid
 You'd agree with me if you knew all I did
 But I have a dream, to be a kid-rocker
 Yes I have a dream to be the kid-rocker

Lead Guitar

Do a little of this, Do a little of that
 I'm not the human torch and I don't wear a cape
 No I ain't Elvis but I thought he was great
 I got twenty guitars and I think it's a crime
 The problem is I can only play One at a time
 I'm not the choirboy, don't play for the band
 Ain't no Charlie Brown and I sure ain't the man
 But I have a dream, to be a kid-rocker
 Yes I have a dream to be a kid-rocker

Lead Guitar

Do a little of this... I do a little of that
 My grandpa and my daddy both played for me
 It's true the apple doesn't fall far from the tree
 If you like my stuff, like it when I pull these strings
 Then shout me a 'Kid-rocker', as a favor to me
 Well I play from the heart, comes out my finger tips
 Guys buy my music because all the girls listen to it
 They love it when I do a little of this
 They love it when I do a little of that
 Says it all when you say it like that
 Kid-rocker Kid-rocker
 I am the Kid-rocker
 When I feel the beat I can't help but move
 In a Texas minute or the New York Groove
 Kid-rocker Kid-rocker
 I am the Kid-rocker
 Been playin' since I was ten and I give it hell
 But it's pure heaven and makes you want to yell
 Kid-rocker

Brianna

Brianna-ooh Brianna
 So adorable and comfortable
 No eggshells or pedestals
 Brianna-ooh Brianna
 You make me laugh like a child when I want to cry
 You give me a smile in place of a sigh
 When I'm wronged, you make it right
 When I can't go on you make me try and try
 You make me warm when it's cold outside
 You give me faith and make me want to strive
 When I am empty, you give me fuel
 Like a magnet, I keep coming back to you
 Ohh-Brianna, oh-Brianna
 My heart is in your hands
 Let's give this love a chance
 Brianna-oh, Brianna
 You make me feel when I am numb
 Make me sound smart when things I say are dumb
 Make me want when I seem to just exist
 I'm short on patients but long for your kiss
 You're my lover and you're my best friend
 If it were up to me this song would never end
 Brianna-ooh, Brianna
 Brianna-ooh, Brianna...
 Lead Guitar
 Brianna-ooh, Brianna
 When my heart is heavy you make it light
 We are still close even when we fight
 You speak highly of me when I feel low
 I love you Brianna-ooh
 Brianna, Brianna-oh Brianna, Brianna

Simon Says

Have you ever been jaded, have you been cheated
 Are you afraid of being mistreated?
 You don't have to answer; you don't owe me a thing
 You can take a chance or ignore me and do nothing
 But let me tell ya misery loves company
 And 'one' can turn into I-one-ly
 C'mon girl take a chance, hold my hand
 I'll show you romance, let me be your man

CHORUS

Simon says- I'll keep my promises
 Simon says- close your eyes
 Simon says- we can compromise
 Simon says- no peeking, let your heart rise
 Simon says- lick your lips
 Simon says- it's time for a kiss

Repeat CHORUS

Bridge

Have you been jaded- Simon says hug yourself
 Have you been cheated?

That's Just the Way She Is

That's just the way she is
 That's just the way she is
 That's just the way she is
 This girl is on my mind
 She knows how I feel inside
 She makes me forget all others
 I tell her that I love her
 She doesn't promise me
 Nothing that she can't keep
 But she's got everything
 That this boy really needs
 That's just the way that she is
 That's just the way she is
 That's just the way she is
 She lets me hold her hand
 In her arms I'm her man

Her heart is what it is
 But I have kissed her lips
 Friends say I could do better
 But ever since I've met her
 She's my reason for living
 But it's her time she's giving
 That's just the way she is
 That's just the way she is
 That's just the way she is
 Her kisses stop time and tides
 She knows my love won't hide
 White lies, black heart, truth hurts
 I don't have to believe her
 That's just the way she is
 (Say it six more times)

You're a Lightning Bolt

I'm looking through the middle of a down-pour
 Thunder so loud you can't hear me call your name
 But I see you there in the eye of the storm
 Did you pray for rain because you brought the pain?
 Now I admit that I'm dwelling on the weather
 Whether or not we will be together
 It's raining heartbreaks, teardrops of never
 You told me that the sun would shine forever

CHORUS

Well you're a lightning bolt and I am thunderstruck
 And everyone knows that I'm coming after you
 Yeah you're a lightning bolt, and I am thunderstruck
 And this thunder is rolling right after you
 I used to live in a dream and have nightmares
 Now everything has changed including you
 Well I'm living those nightmares full of tears
 Flooding my dreams of when you loved me too
 Looking but I can't seem to find any shelter
 Here's the storm but not a cloud in sight
 Drowning in memories of us together
 Will this rain let up, will this storm die?
 Repeat CHORUS

Cup of Sugar

I'm just your friendly neighborhood
 Warm welcome committee
 And I'd like to get to know you
 If you have a minute for me
 I don't believe in love at first sight
 Or even better or worse
 Just want to talk for a second
 But there's something I must ask first

CHORUS

Could I borrow a cup of sugar?
 Could I bother you for a hug?
 Ever since the day I saw you
 You're all I've been thinking of
 So could I borrow a cup of sugar?
 Could I bother you for a hug?
 Normally... I'm kind of quiet, that's me
 But honey, you sure look sweet
 Now I'm as loud as my heartbeat
 Since you moved next door to me
 Can't stop my knees from shaking
 And at night, it gets HARD to sleep
 So if I could impose on you
 I'm hoping you've got what I need

CHORUS

I know you don't know me that well
 And this seems kind of strange
 But if you're half as lonely as me
 I'd like for all this to change
 It took some time to get the nerve
 And courage to knock on your door
 But if you have what I'm wanting
 I'll keep coming back for more

CHORUS

Shouldn't Have Looked Back (When I Walked Away)

The hardest thing I've ever done
 Was keeping my promise to you
 My promise to make you happy
 No matter what I'd have to do
 If it means you want me to leave
 Then there's no reason for me to stay
 And if there's nothing to work out
 I'll just turn and I'll walk away

CHORUS

Shouldn't have looked back when I walked away
 The tears in your eyes were trying to say
 That you still love me and that you would try
 You held me so tight but then said, good-bye
 I still don't know what had happened
 But I don't want your sympathy
 If guilt is the only thing you feel
 Well you'll get over it and me
 I'll go back to dreaming alone
 Hurting for the rest of my life
 Knowing that the best years I've ever known
 We're nothing more than a ...lie

CHORUS

Wished you would have told me before
 That you're not the marrying kind
 You're probably better off without me
 So go ahead leave me far behind
 And yes, I will keep my promise
 To make you happy in everyway
 Yes I'll turn into a memory
 Soon as I turn and walk away

CHORUS

Gypsy Rock

How many Gypsies are there in the crowd?
 How many want to hear some Gypsy Rock?
 I said... How many want to hear some
 Gypsy Rock... Let's go!
 My mama told me when I was young
 Goin' from town to town livin' on a bus
 Give the people what they want, and have some fun
 Because life's too short so live it up- yeah
 Up from the bayou through the Mississippi
 Somehow we always end up in New Jersey
 People want to hear us from everywhere
 Because it's Gypsy Rock that they love to hear

CHORUS

So we give 'em... some Gypsy Rock
 When you get it you don't want to stop
 Nothing better than Gypsy Rock [Scream]
 People say we look like bikers and pirates
 It's not for the show, it's not for kicks
 We wear scarfs, bandanas, and feathers
 Make-up, rings, silk sometimes leather
 Up on the stage dancin' with the mike stand
 Spittin' on the mike, screamin' for the fans
 Boucin' off each other, jumpin' in the air
 Dancin' like a chicken and shakin' our hair

CHORUS

We play guitar like the Master Berry
 And we keep on playin', we never get weary
 I'm on the Gypsy Road with a Gypsy Rose
 Lookin' for a girl named Gypsy to rock-N-roll

CHORUS

Gypsy Rock is like a cup of love
 Can you get enough just drink it up
 [Scream] yeah, a cup of love
 Can you get enough, just drink it up

Glass Half-empty, Glass Half-full

I lost my job when my car broke down
 Couldn't pay rent so I got kicked out
 Lonely winter shades of gray doubt
 Now I'm up the creek and my luck's run out

CHORUS

Is the glass half empty?
 Or is the glass half full?
 What difference does it make?
 If it's from a poisonous pool
 Is the glass half empty?
 Is the glass half full?
 What difference does it make?
 In the desert, it's just plain cruel
 Now I lost my girl to my best friend
 Guess maybe I shouldn't have trusted him
 I knew that he'd stab my back all along
 And now my life is like a country song

CHORUS

Nowhere to go and no place to hide
 Now what am I to do with my life?
 If it's true only the good die young
 Then this sorrow will only go on and on

CHORUS

Blue-Jean Baby

When I feel I've had enough
 Just can't take any more
 When I'm in need of a hug
 I know just where to go
 I call my Blue-jean baby
 She knows how to make me smile
 So when I'm feeling crazy
 She makes me forget for awhile

CHORUS

My blue-jean baby makes my life worth living
 My blue-jean baby she's worth dying for
 My blue-jean baby, whoa, what she does to me
 My blue-jean baby, she sure looks good in jeans
 So when I get into trouble
 Fallen and I can't get up
 I know just who to call
 For someone to pick me up
 I call my blue-jean baby
 She makes me feel alive
 And for a while just maybe
 There's someone on my side

CHORUS

I Miss You Already (And you're Not Even Gone)

CHORUS

I don't know who you are
 Wish I knew where we went wrong
 I don't know you anymore
 You've been a stranger for so long
 I miss you already, and you're not even gone
 When I reach out for you
 It just pushes you away
 Your love for me is lost
 And I just can't find a way
 I want to give you my love
 But it's like talking to a wall
 I want to be in your arms
 And I want to be your all
 I know that you can hear me
 But you're just not listening
 All this time that I'm missing you
 I wonder if you're missing me

CHORUS

Standing right there next to you
 But you're a million miles away
 I love you but you just want out
 What do I say to make you stay?
 When we walk by each other
 We'd always stop and kiss
 Now we just say excuse me
 Baby I miss those lips
 Guess I couldn't see the difference
 And I thought that I knew you
 But you're just like all the rest
 I just can't believe that it's true

CHORUS

No P.D.A.

All the teachers say no P.D.A., No P.D.A.
 Well I sit up straight and I
 I don't ever talk back
 And in the boy's room's where I
 Is where I keep my pack
 I ain't the teacher's pet
 And I've had all I can take
 All the teachers say... No P.D.A., No P.D.A.
 There are so many girls
 In this crazy school
 The way they all look at me
 Well I ain't no fool
 RAP
 But all the teachers say
 No public display of affection
 Or in school's correction
 No P.D.A., No P.D.A.
 Did I forget to mention
 In school's suspension
 Education's connection
 Collection of affection
 No P.D.A., No P.D.A.
 Lead Guitar
 I don't really want to
 Get in any trouble
 But my lips wanna play
 Some double bubble
 I've had all I can take
 All the teachers say, No P.D.A.
 There's so much eye-candy
 In this crazy old school
 Can't take it anymore
 And I ain't no fool
 All the teachers say
 No P.D.A., No P.D.A.
 RAP

Conversations all bark no bite
 Abbreviations can go fly a kite
 My hands –N-eyes need to reach out
 Crushin', touchin', lovin's what it's all about
 No P.D.A. in the hallways
 No P.D.A. in the class
 Would it be P.D.A.?
 F U kiss my ass
 All the teachers say
 No P.D.A., No P.D.A.
 No P.D.A., No P.D.A.

Babe

Well I say BABE
 You've got me goin'
 And I say BABE
 I am so low
 Please let me stay
 Just one MORE night
 And I promise BABE
 I'll make it right
 I know I didn't listen
 And it's important what's on your mind
 And now you have me wishin'
 For once I'd have taken the time
 BABE
 You give me chills
 In the heat of the night
 You give me vision
 When I lose my sight
 You drive me crazy
 When I should sleep
 I confess to ya baby
 That I've fallen for you deep
 BABE
 There ain't no maybe
 No if, buts or ands

Don't want to lose you my lady
 Please second chance this man
 Beg, borrow or steal
 Whatever it takes
 This dream is real
 And I don't want to wake
 And I said BABE
 I apologize
 'Cause BABE now I realize

Angel of the Dawn

Thinkin' 'bout you, all the time
 One track mind, can't shake it loose
 Comin' on strong, keep on tryin'
 Break my heart if it ain't any use
 I'm gonna say sweet things to you
 Till you say, I've said enough
 And always be right by your side
 Even when life gets too rough

CHORUS

Heaven sent with a good-mornin' kiss
 Hold me in your arms, Angel of the Dawn
 Angel of the Dawn holds me in your arms
 I know we don't know each other
 As much as I'd really like to
 But I would do anything for you
 Just because you ask me to
 I'd work for you everyday
 Till you say come home and rest
 I'd like to know what turns you on
 Till you say baby you're the best

CHORUS

Wings of trust, you're all I'm thinking of
 In short you make me long, Angel of the Dawn
 Angel of the Dawn, In short you make me long
 I know I might not be your type
 But in my eyes you mean so much

I wish I could read your mind
 Wish I could live off of your touch
 I'm gonna give you sweet lovin'
 Till you say I've got to stop
 What I'm trying to say is
 That I really, really like you a lot
 CHORUS
 At first sight I knew you were right
 Serve you like a pawn, Angel of the Dawn
 Angel of the Dawn, serve you like a pawn

I Know a Good Thing (When I see one)

Well I've been around, and I've lived a full life
 In all that time, I've never met Mrs. Wright
 The fast lane has always kept me on the run
 Love is blind, but I know a good thing when I see one
 She's the best thing that's ever happened to me
 She treats me like a king and a king needs a queen
 Yes I know a broken heart ain't that much fun
 Love is blind, but I know a good thing when I see one

CHORUS

Her knight in shining armor
 Wants her to be his partner, yes it's true
 Those strings I never wanted
 Are ready to tie the knot, please say I do
 Marry me, and we'll shine like the mornin' sun
 She just said that she knows a good thing
 When she sees one

CHORUS

Bridge

Yeah love is blind but I know a good thing when I see one
 Yeah love is blind but I know a good thing when I see one

Written by David and D. Dean Wright

Kimberly Ann

Well I saw her across a crowded dance floor
 She was sitting with a friend at the bar
 She had light brown hair and eyes of an Angel
 And a smile that would soon melt my heart
 So I asked her if she'd like to dance with me
 And she took me by the hand onto the floor
 She must've been a dream I was dreaming
 Cause she was more than a woman so much more

CHORUS

She told me her name was Kimberly Ann
 And that night I knew I fell in love
 She was like an angel from heaven above
 And that moment in time
 When her eyes met mine
 I fell in love with Kimberly Ann
 I held her so close, she held me just as tight
 Arm in arm we danced till we could no more
 The band played love songs till the mornin' light
 And I swear that our feet never touched the floor

CHORUS

Yes the lady's name was Kimberly Ann
 And that night... etc.

You Make Me Happy My Maddie

I wasn't lookin' when I found you
 And I don't know if young love can be true
 But I want it to; I want it to with you
 I can't explain what you do to me
 Are you real or are you just a dream
 I feel you are all that matters to me
 Hope you feel the same, please let it be
 Let it be

CHORUS

I will treat you right oh Baby
 You make me happy, my Maddie
 And I will treat you nice My Lady

You make me happy Oh Maddie
 Lead Guitar
 Before I realized that this was love
 You were still all I was thinking of
 I was thinking of

CHORUS

And I will treat you right my Baby
 You make me so happy my Maddie
 And I promise to be nice my Lady
 You make me happy my Maddie
 My Maddie, My Maddie

I See a Galaxy in Your Smile (And I Want To Go There)

I see a galaxy in your smile
 And I want to go there
 Like a solar system that brings life
 And one planet with air
 Can't believe what I see in your eyes
 Sparkling like solar flares
 Throughout space they're the only light
 With no spatial rift tears
 Your laugh is like a kiss to my ear
 And just like the vacuum of space
 You take my breath away my dear
 I am the tail of the comet giving chase
 I see a galaxy in your smile
 And I want to go there
 Girl you make me feel like a child
 Full of love and have no cares
 Now the universe has changed
 Ever since I looked your way
 But I don't know what to say
 In orbit around your amazing grace
 I would like to give you my name
 And hope the galaxy stays
 And your smile never goes away

I see a galaxy in your smile
 And I want to go there
 I want to be the reason it exists
 And taste the universe in your kiss
 Your smile is a comfort like the warmth of the sun
 It's one in a million and I know you are the one
 'Cause I see a galaxy in your smile

Getting' the Band Together

CHORUS

Getting' the band together
 Getting' the band together
 I'm getting' the band together
 Getting' the band together
 Getting' the band, doin' what I can
 Gotta guitar, voice, even a fan?
 Now I need two with fingers and thumbs
 With a desire to play bass and drums
 [Bass and drum solo for 30 seconds]
 We may not be Nugent, Sabbath or Dio
 Not AC/DC, Aerosmith or Rainbow
 Wanna rock-N-roll like Def Leppard
 Born with the soul of Cinderella

CHORUS

Getting' the band, doin' what I cans
 Got guitars, heavy voice, a lot more fans
 Now I need two more keepin' up with me
 Help me sing, play rhythm while I play lead
 Lead /3 Guitars
 We may not be Nugent or Dio
 Even Angus or rainbow
 But we rock like Def Leppard
 Roll with the soul of Cinderella
 Getting' the band together
 And playin' every night
 Playin' hard and harder
 You're listening to Kopy-Wright

Honey/Sugar

Like to push me around
 You do like to talk tough
 I'm gonna bring you down
 Because I've had enough
 You tell me what to say
 You tell me what to do
 It's gotta be your way
 Well I've got news for you

CHORUS

Honey [Pause] - Can I get you anything
 Sugar [Pause] - Is there somethin' you need done
 Sweetheart- Do you want another ring
 Baby, baby, baby, I was only having fun
 Can't and won't let me go
 And I'm glad that that's true
 But there's somethin' you should know
 Girl, I've had it with you
 Don't turn your back on me
 No don't you walk away
 I will not let this be
 Cause I've got somethin' to say

CHORUS

[End with]

Honey/Sugar, Sweetheart, Baby, baby, baby

Rock-Room

Sittin' in my rock room playin' my favorite tunes
 Sippin' on some M-Dew, we don't drink the booze
 Guitars' keepin' the rhythm, Bassist keeps the beat
 Doin' all the pickin', drummer never leaves his seat

CHORUS

Drummer goes boom-boom, in our rock room
 It ain't work if we're havin' too much fun
 Down in our rock-room... ROCK-ROOM
 Posters on the wall of guitar heroes and pretty dolls
 Jamin' on my Les Paul, can't hear my mama call
 Harmonica on the left, keyboards on the right

We're all goin' deaf but we play all night
 Drummer goes Boom- boom... etc.
 Rockin' DVDs on the flat-screen
 Amplifiers loud, yeah, you know what I mean
 Girlfriends callin' all the damn time
 But in the rock-room they're not allowed inside
 Drummer goes Boom-boom ...etc.
 Awe, play it Krikit!
 Lead Guitar

Eyes Wide Shut

You are either a fool or just full of it
 Think you're so cool when you're givin' me lip
 Well this ain't no bull so just shut your face
 Time for the truth and it has a bitter taste
 When you look at me, you just see right through
 Yeah, you seem to think it's all about you
 What you want and need and yes even love
 Is right in front of you, but your eyes are wide-shut

CHORUS

Eyes wide shut
 Listen up, ain't gonna put up, so just shut-up
 Eyes wide-shut
 Who, when, why, where, how and what
 Eyes wide shut
 Open them and try an focus them on us
 Eyes wide shut, say what, eyes wide shut
 You act like this is just a one-way street
 In the middle is where we should meet
 I've told you before and I'll tell you again
 Won't see me on my knees, won't see me beggin'
 At times it's like the opposite of heaven
 Dontcha thinks too much, I don't wanna weddin'
 You know I don't ask much, eyes wide shut

CHORUS

Eyes wide shut
 Who, when, why, where, how and what
 Eyes wide shut

Open them and focus them on us
 Eyes wide shut
 Eyes wide shut, Eyes wide shut
 Think you're so pretty, yeah, think you're so smart
 Think it's an itty-bitty shame that you push me so far
 Wish I was as important as you think that you are
 You like playin' games but you're playin' with my heart
 Remember when we weren't just livin' in sin
 Yeah, we were truly in love
 Now you just look my way again and again
 With your eyes wide shut

CHORUS

Ibanez

Well she glistens but she ain't wet
 I run my fingers all down her neck
 She's got a curvaceous body
 Yeah she's a momasita-hotty
 We make beautiful music
 Turn it to ten, I'll use my pick
 Hold her strings against my six-pack
 Lead-Solo
 She holds the keys to my heart
 I pull her strings and her whammy-bar
 She's built E to E, but I love her G-string
 I hold her loose, I hold her tight
 She'll never leave her Kopy-Wright
 She's got pick-ups and she's in tune
 My friends say we ought to get a room
 Strapped together just like hot sex
 You know her name is Ibanez
 Ibanez, my Ibanez
 Her name is Ibanez
 I plug her in, feels like a sin
 She can't face me, but she tastes me
 My Ibanez

(Tribute to my Guitar)

Firefly

We're at the raggedy edge of no where
 Don't push me and I won't push you
 You threaten to leave, who's keepin' you here
 Nobodies stoppin' you honey but you
 Take it as a kindness if you would
 Girl, I'll even help you pack
 Talkin' ain't getting' it done though it should
 Out a sight and mind and off my back

CHORUS

You're like a firefly, only see you at night
 My little firefly, two wrongs don't make a right
 Firefly, firefly... Fire... fly
 You spin me round always fogging' things up
 You know I wish that you were somewhere else
 Nothing in the verse is quite like your love
 You're always thinking about yourself
 You spin me round givin' me heart-burn
 I wish that I never met you
 You light up then give a hard-burn
 You can't treat me right, I bet you

CHORUS

You're a firefly, you're a firefly
 You brighten up the night
 You're a firefly, my little firefly
 Can't win this fight, I can't win this fight

(Tribute to an awesome show)

They Say Leave Her Alone

They say we're too young for love
 For boyfriend or girlfriend
 Can't make my heart give it up
 Feels like the world would end
 Well I'd love to walk her home
 But she rides the bus
 I'd call her on the phone
 But her folks would fuss
 There's no way we could run away
 Or even make it on our own
 Doesn't matter what anyone may say
 I'll never-ever leave her alone

CHORUS

They say leave her alone
 I'll never leave her alone
 They say leave her alone
 They say leave her alone
 They separate us in church
 Me front, you back, you're left, I'm right
 They don't know how much it hurts
 Dusk till dawn yeah day or night
 They say that it's infatuation
 Its puppy-love and it's just a phase
 Say its physical attraction
 That we're changing in so many ways

Lead

They say its pheromones and hormones
 And the combination of the two
 All I can say is sticks and stones
 I only know that I'm stuck on you

CHORUS

Bridge

Mama don't know what mama don't see
 And Daddy's got issues 'bout you and me

Lost Cause

She thinks she's every guy's reason to live
 But she's not
 She thinks she's an Angel, neigh, heaven's gift
 But she's not... She's just a lost cause

CHORUS

Don't let her tears touch your fears
 That's how she controls you so well
 Don't let her cry on your shoulder
 That's how she puts you under her spell
 She's a lost cause, she'll never change
 A lost cause, just walk away
 A lost cause, she's a... lost cause
 If you look in her eyes, you'll start to dream
 Let me tell ya buddy, she ain't what she seems
 If you feel her touch and you don't turn to stone
 Once you're addicted she will leave you all alone
 Lost cause, she's a lost cause
 If you hear her voice you might start to melt
 Don't turn your back; she feeds on what you've felt
 You'll fall for her smile then you'll fall in her web
 If you catch the fever, you will lose your head
 Lost cause, she's a lost cause
 If she talks about love, you'll only love to hate
 You better get out fast before it's too late
 She will talk about trust and hint about forever
 Her perfume is lust, but her heart says never
 Lost cause, she's a lost cause
 If you taste her pleasure, it slowly turns to pain
 Then you'll be like me, you'll never love again
 She will treat you like a king, then just like dirt
 It's all fun and games until someone gets hurt
 Lost cause, she's a lost cause
 Yeah she's a Mississippi queen and a southern bell
 But if you ask me she comes straight from hell
 Black-sheep of the family, they even call her witch
 If you knew her like I do, you would call her...

Lost cause, she's a lost cause
 She's like a mustang that never could be tamed
 I know how you feel, like a moth to a flame
 She's like a sea of stars that is never ending
 But like a perfect storm, she's only pretending
 Lost cause, she's a lost cause

CHORUS

Lead

She's a realm of euphoria but she's just a curse
 And after this song, you'll know every verse
 She ain't no Ms., Miss., Mrs. Or a Ma'am
 So go ahead and do all that you can
 Told you all the facts, here's some more truth
 Know her inside and out, have you seen her tattoo
 Under her bra and on her luscious tit
 Of an apple with a snake wrapped around it

CHORUS

I Like to Rock

I like to rock, I like to roll
 I'm a rocker who loves rock-N-roll
 Like to rock soft, like to rock hard
 I love to rock on my guitar
 Love to rock loud so I can be heard
 Rockin' gets me high as a cloud
 Or even fly like a bird
 I like to rock on, I like to rock off
 I just can't ever get enough
 I like to rock down, like to rock up
 Everybody knows it's rockin' that I love
 I say rocks hot, you think rock's cool
 Roll over Beethoven or go back to school
 If you ask me what I want for my birthday
 I'd tell you I just want to rock
 Ask me what I want for dinner
 I'd still tell you I want to rock
 My favorite drink is on the rocks

A girl's best friend is called a rock
 Rock till curfew, but then I don't stop
 I like to rock around the clock
 Rock it to the left, rock it to the right
 Rock it every day, rock it every night
 I hold my guitar just like a sword
 Rockin' to the south, rockin' to the north
 Rockin' on my Jackson, rockin' my Ibanez
 Rock it to the east, rock it to the west
 Like to rock it in, I like to rock it out
 I like to rock it fast never slowin' down
 Rockin' in the dark and rockin' in the light
 Rockin' till dawn, livin' after midnight
 I like to rock, I like to roll
 Rockin' so high, time for a solo
 Lead
 Live to rock-N-roll until I die
 I'll play for the reaper till I look him in the eye
 Then I'll be rockin' in heaven or by myself
 And if there's no rock-N-roll
 I'll be rockin' someplace else

Shades of Gray

Shades of gray, shades of grey
 I look outside and I get snow-blind
 Winters for emptiness and ice
 White lies, Blackheart
 My world's torn apart
 Shades of grey, shades of gray
 It's never the same; it's all shades of gray
 Go by the numbers, play by the rules
 Wonder what I am goin' to do
 Ain't no truth, if it's all lies
 Spent my life now I realize
 Shades of grey, shades of gray
 Negative daze, it's all shades of gray

Now I confess I'm a little depressed
 It started with the finish of when she left
 I guess today's just not my day
 Not even sure if I wanted her to stay
 Everywhere I look, I see shades of gray
 Shades of gray, shades of gray
 Like a movie that's black and white
 Done and gone and without a fight
 Time to lie down or take a stand
 Who cares if I don't give a damn?
 It's all shades of gray, shades of gray
 The color to die for, shades of gray
 Can't take much more, shades of gray
 Shades of gray, shades of gray
 Bridge
 Every cloud has a silver lining
 But I could never find it, find it

Lease on Life

Can't afford to live, can't afford to die
 Freedom ain't free when you're barely getting' by
 By the time you get through with car payments
 Your car breaks down and you gotta get it fixed
 In all that time you have to pay insurance
 Yeah from now on you have to pay insurance
 Can't afford to live, can't afford to die
 Freedom ain't free it's just a lease on life
 By the time you get through with the house payments
 The house breaks down and you gotta get it fixed
 In all that time you have to pay insurance
 Yeah from now on you have to pay insurance
 Car, house, fire, flood and theft- Good
 God- dental, vision, life and health
 Don't get me started on taxes!
 Freedom ain't free is the only guarantee in life
 Can't afford to live, can't afford to die
 It's just a lease on life, a lease on life

Cause and Effect

My appreciation of the situations
 Will cause deviation of the constellations
 Needs medication and verification
 Participate to alleviate consternation
 So hesitation cancels satisfaction
 Procrastination could be ever lastin'
 Participation in whole instead of fractions
 Keeping stations with life's Attractions
 Taking actions that cause sensations
 Multiplications of relaxations
 Medication instead of procreation
 And Stipulations of our approximations
 Consumptions and assumptions of reputations
 Relativity or theory in the computations
 Abbreviations of our races are on vacations
 Having inclinations about any donations
 Have cause and effect, cause and effect
 Having temptations about occupations
 Still sensing dangers of revelations
 And realizations of isolation
 Assumptions on watch simulations
 The sensitivity about our evaluations
 Are the indications of the populations?
 No one wins with suffocation or radiation
 There's no illusion of our seclusion
 And the confusion is complete conclusion
 Institutions, liberation of the constitution
 Suspicions, intuitions forms federation colonization

Poker Face

Say, well the deck is cut
 And the cards are dealt
 I was prayin' for luck
 But the way that I felt
 Lady Luck wasn't with me
 Had no card up my sleeve
 Then she raised the ante
 Yeah I was in so deep
 CHORUS
 Poker-Face- Poker-Face
 I'm gonna call your bluff
 Poker-Face- Poker-Face
 She just can't get enough
 No mistake, Kiss my Ace
 She was the queen of clubs
 Laying down the seduce
 If she's got a Royal Flush
 Don't know what I'm gonna do
 I was playin' from the heart
 But she threw it in the pot
 So I took another card
 And said," Take your best shot"
 CHORUS
 Well her deck was stacked
 She had quite a pair
 Could she beat four jacks?
 But she wasn't playin' fair
 Now the stakes are high
 Cards are on the table
 Did she have four of a kind?
 She was more than capable
 CHORUS
 She was acting like a joker
 As she bumped it to the limit
 She had a love for poker
 But her wild cards were spent
 She liked diamonds in a straight
 Or was it a full house or a flush
 But all she had was just an Ace
 But it was Soooo fine!
 Poker-Face, Poker-face

World

I did everything I could think of
 Crossed every bridge that could be crossed
 Tried some way to save our dying love
 They say love is blind and I didn't see
 And every heart has a door that locks
 You took my key and closed it on me
 Now it feels like all time has stopped

CHORUS

The world really did revolve around you
 You are the center of the universe
 Now I'm lost in space, I don't know what to do
 I could never imagine how much love hurts
 Empty hours, lonely weeks, and wasted years
 No end in sight just streams of tears
 God knows that I've faced all of my fears
 What can give life can also kill
 Your love's a desert, and I'm dying of thirst
 My love is a stone, the one you tossed
 I can truly say I don't know what is worse
 Losing your love or knowing that it's lost

CHORUS

Those bridges we built, you burnt everyone
 The door you slammed, the key I just can't find
 It's so hard to see that it is over and done
 I can't deny that I've run out of time
 I guess my world is over, yes it's true
 The world really did revolve around you
 Now the eggshells and pedestals are few
 The world really did revolve around you

CHORUS

Cards and Odds

People say I act like
 I have something on my mind
 As a matter of fact I do
 I think about you all of the time
 They say that I look like
 I've just lost my best friend
 Yes you can judge this book
 From its cover to its end
 They tell me I'm starting to
 Act crazy and it's true
 Ever since I met you babe
 I've been crazy over you
 People seem to think I'm losing it
 That I'm going out of my mind
 When you walked out is when I lost it all
 And I'm out of my head with what you left behind

CHORUS

Not every story has a happy ending
 Or a morale or even a point
 True love only happens in a book
 A movie, or by the toss of a coin
 Well the cards were stacked against me from the start
 And the odds told me that you would break my heart
 But I would play the cards again anytime
 Or the odds for another chance to make you mine
 People say that I look like
 That maybe something is wrong
 If they only knew how right they were
 But all this time I keep holding on
 They tell me that I'm different
 That something's just not the same
 And I am inclined to agree with them
 Everything's different since you've changed

CHORUS

Bridge

All of the stories and love, and romance
 Against cards and odds don't stand a chance

Jailbait

I almost judged the book by its cover
 All that make-up, hard to tell what's under
 She wanted so bad to be my lover
 Would've loved to have met that girls' mother
 Jail-bait, Jail-bait
 That hot chick tried so hard to seduce me
 Tried to shake her but she wouldn't lose me
 Out of all the guys why would she choose me?
 Told her 'No', but she wouldn't refuse me
 Jail-bait, Jail-bait
 She was just a teen you know what I mean
 Cherry pie lustin' so hot, young and clean
 Jailbait- twelve will get you twenty
 Jailbait- she's got wants-a-plenty
 Won't be a Bastard or a son of a bitch
 Her cat scratch fever I better not itch
 Preaching to the choir, practice what I preach
 I told that girl I was out of her reach
 Jailbait, Jailbait
 Rockin' the cradle or take a cold bath
 She's a teen I'm not, let me do the math
 Jailbait- twelve will get ya twenty
 Jailbait- she's got wants a plenty
 That's one sin I won't be getting' in
 I almost kissed her, wonder if she's got a sister
 Jailbait, jailbait

I Love Her, and I Hate Her

She's fire and water, [Desire and a slaughter]
 Heaven-sent and hell-bent
 She knows where she's going
 And she knows where she's been
 A demon and an Angel
 She can play it safe

Or put you in danger [she never behaves]
 She's ice and very hot
 Well sometimes she is
 And sometimes she's not

CHORUS

I love her and I hate her
 She is a loyal betrayer
 I love her and I hate her
 She's romance and a lust slayer
 I love her and I hate her
 Heartbreaker and a love maker
 Taker, faker and forsaker
 I love her and I hate her
 She's pleasure and pain (Intelligent and insane)
 Confusing and frustrating
 Amusing and devastating
 The bitch has got me waiting
 She's a teardrop and a smile
 All women and a child
 Forever for a little while
 She's flaunting and haunting
 She is nothing that I need
 But she keeps me wanting

CHORUS

She's a nightmare and a dream
 She's so real and a fantasy
 She's so wrong and she's so right
 Sometimes she's day and sometimes she's night
 She'll give you a taste before she bites
 She's the cure and she's the disease
 She can tease and she can please
 She brought me to my knees
 She'll give it all and leave nothing left
 She is life and the kiss of death

I love her and I hate her

Until my last breath

CHORUS

Where No Man Has Gone Before

It's a paradox, Pandora's Box, window in time
 Though it's real, something's just not right
 She is not who she is supposed to be
 Parallel universe maybe, maybe
 Wrong dimension if that's the case
 Somewhere there's a hole in space
 Must find it to make it back home
 Pretty sure I'm not supposed to be alone
 Given her all I've got, need an alternative
 Something ain't right in this life I live
 I know this world is of solid matter
 But I keep looking for the mad hatter
 I must be in the twilight zone
 Ever since she left me alone
 So I keep looking for the door
 Where no man has gone before
 Warp-drive, slingshot around the sun
 The only thing my heart could've done
 Hyperspace, must have hit a star
 To boldly go to where you are
 Need to cross the neutral zone
 The vast cold space shivers me to the bone
 So I keep looking for that door
 Where no man has gone before
 It's a paradox, and I'm lost in space
 Our love had vanished without a trace
 Guess someone must've beamed it up
 I'll search the galaxy for our love
 To seek out what was taken from me
 Deep down I know it was meant to be
 So I keep looking for the door
 Where no man has ever gone before
 Warp-drive, slingshot around the sun
 Only thing my heart could've done
 Hyperspace, must've hit a star
 To boldly go to where you are

Need to cross the neutral zone
 This vast cold space shivers to the bone
 So I keep looking for the door
 Where no man has gone before

You Don't Want It

I'd give you the sun and the moon if I could
 Try to keep you happy and you know that I would
 But you don't want it
 I'd give you my love, my heart and my soul
 I'd give you the leash and let you take control
 But you don't want it
 I'd give you respect and take care of your needs
 I bought you a ring, hell I'd buy you anything
 But you don't want it
 No you don't want it... from me

CHORUS

Well here it is in black and white
 I've lost the battle but I won't give up the fight
 And you don't want it
 Well if that's the way that it has to be
 It turns full circle as in history
 And you don't want it
 But if the circle is like my heart
 It may not break but it could fall apart
 I can't believe it wasn't meant to be
 Me for you and baby you for me
 I'd take you out to dinner and buy you some wine
 You'd probably go but it would be a waste of time
 And you don't want it
 If I had a million dollars I'd give it to you
 But you wouldn't take it because it's from you know who
 And you don't want it
 If I gave you a dozen roses they'd wilt in your hand
 Like the tarnish of the gold on your wedding band
 'Cause you don't want it
 No you don't want it... from me

CHORUS

Do ME

Hey gourmet dinner, I'm starvin' to death
 Hey air that I breathe, can't catch my breath
 You're wet as water and I'm dying of thirst
 You are my home plate, but I...yeah I...
 Can't even make it to first
 Hey Miss Finelock let me use my key
 Runnin' on empty, gimme, gimme gasoline
 Hey Super-Nova, yeah blow me away
 You are an Angel, but I...yeah I
 Can't penetrate Heaven's gate
 Hey Miss Delicious, you're a banquet spread
 Be my satin sheets and I'll be your bed
 You are the moonlight goin' down on me
 You're summer's hot sun, but I...yeah I
 I'm startin' to f, f, f, freeze
 Little Miss Fever, take your temperature
 Yeah right up your past into your future
 And while I'm down there I'll get you off
 Yeah I'll turn you on, but I...yeah I
 Shouldn't, couldn't, wouldn't wanna stop

CHORUS

From the bottom of my heart
 To the tip of my tongue
 Burnin' rubber in all four gears
 Love to feel her engine run
 Sleek hard body, top is down
 Take a look under her hood
 Clean machine, low to the ground
 Adjust her timing for good
 Her deck's stacked with quite a pair
 I like a little head in my beer
 Queen of clubs is oh so hot
 Whiskey's quicker, take a shot
 Cards on the table, stakes are high
 Ace in the hole, watch me fly
 Intoxicating, card up my sleeve

Ohh baby, baby, baby-DO ME
 Hey passions prison don't want to be free
 Sexy chains of love would you pleas hold me
 If you're just a dream, don't wanna wake up
 You're an addiction girl, and I...yeah I
 Could never ever get enough
 Hey Tennessee River, mind if I go south
 Start with your mountains or maybe in your mouth
 Down to your valley where forests are thick
 Heavenly body, you know you make me wanna sin
 Celestial Temple- let me in, and I...yeah I
 Would do it all inch by inch

Better Him Than Me

She'll show you what love is all about
 Then she'll turn your world inside out
 She'll show you all about passion
 Before she turns into an assassin
 She'll let you believe and then leave
 Well I say, better him than me
 She'll rock your world then roll over you
 She'll leave your poor heart black-n-blue
 She'll tell you what you want to hear
 Then one day she just disappears
 She doesn't say please, she'll only tease
 Well I say, better him than me

CHORUS

Better him than me
 Because I've been here before
 Better Him than me
 Cause I can't take it anymore
 Better him than me
 If he wants to take that ride
 Better him than me
 She'll only make him cry
 No you won't recognize the signs
 Don't you know she knows love is blind?

She'll keep playin' with your mind
 Till she's ready to say goodbye
 None of her promises will she keep
 Well I say, better him than me
 You know she'll strip all of your pride
 And she'll never be satisfied
 Oh you'll give her your very best
 But she'll hurt you like all the rest
 The only thing she loves is money
 Ohhh, better him than me
 I say better him than me
 You know it is true-better him than me

Autumn Blues

Spring forward and fall back
 With the clock and my heart
 Birds fly south, it's a fact
 Leaves will turn and tears start
 There's a chill, it's getting cold
 Everything's a shade of gray
 You're no longer there to hold
 I feel you slipping away
 Feel you...slipping...away
 CHORUS
 I'm feeling those autumn blues
 Know what it's like to lose
 No cure for those autumn blues
 No matter what I try to do
 And I will never ever get over you
 I'm helpless with those autumn blues
 Missing- Thinking of you
 Wishing- Our love was true
 Crying- Me without you
 Trying- To make it through
 Those...autumns... blues

It Ain't Too Late

Your love is like a toothache
 And I can't stand the pain
 But I don't want to lose the tooth
 Honey please come back and stay
 You're like a one-way ticket
 And I'm on a one-way road
 We're both goin' the wrong way
 Whichever which way we go
 CHORUS
 It ain't too late
 There's still plenty of time
 It ain't too late
 For you to change your mind
 Lots of ground uncovered
 Lotta years left for us
 Dontcha give up on our love
 I'd really miss your touch
 There's still a reason to smile
 We can still have good times
 Let's leave the past behind
 Dontcha let our love die
 CHORUS
 It ain't too late
 There's still plenty of time
 It ain't too late
 For you to change your mind
 My life is like a puzzle
 And it won't be complete
 My heart would be so empty
 Because you're the missing piece
 I'll never forget, it's like riding a bike
 C'mon now honey, don't let our love die
 CHORUS

Strike Three

I couldn't catch my breath
 Since the day you took it away
 But I never had a chance
 But I played the game anyway
 Every pitch that you threw
 I'd either miss or foul it up
 The last curve you gave me
 I think the sun was in my love

CHORUS

Strike one- Never make it to first base
 Strike two- Never got to play it safe
 Strike three- Never got the run to home plate
 And now, the game is called on the count of rain
 The game was never close
 But at least I got to bat
 Yeah I wanted a homerun
 Yeah I wanted a grand slam
 I never stole a base
 Couldn't even get a hit
 I didn't catch a thing
 Her love I didn't win

CHORUS

I need at least a time-out
 I wanted to taste victory
 Never even got the field
 She was out of my league

CHORUS

I Keep Waiting

My love is overflowing
 It just keeps building up inside
 No release so it keeps growing
 And it tries so hard to hide
 The only one I want is you
 Can't get you off of my mind
 The only thing that I can do
 Is just wait and bide my time

CHORUS

So I keep waiting for a faded love to grow
 Yes I keep waiting and I want you to know
 That I'll wait no matter how long it takes
 For you to change your mind-N-rekindle this flame
 One day my heart will explode
 Because there's nothing in return
 But my love will still flow
 They say in time it won't hurt
 But with all the love in my heart
 You will need it someday
 That is how a fire starts
 My love burns for you always

CHORUS

No Deposit, No Return

CHORUS

No deposit, no return
 You play with fire and you're gonna get burnt
 Live for desire, there's a lesson to learn
 No deposit, no return
 The more I gave the more you took
 The more I tried, the more I'd hurt
 I'd give you an inch you'd take a mile
 And I keep giving it to see your smile

CHORUS

Took your hand for better or worse
 Your love's a desert and I'm dying of thirst
 I worry too much yet you don't seemed concerned
 My place was always second to your first

CHORUS

I'm treated like nothing more than dirt
 Now I'm nothing less than a heart that yearns
 Rivers still roll and bridges might burn
 If your love was food I'd die of hunger

CHORUS

Roses are red and violets are blue
 But you can't get blood from a turnip
 So baby, I'm through with you

The Lone-ly Ranger

They call him the lonely Ranger
 A good-doer who upheld the law
 He was not afraid of danger
 The quickest draw you ever saw
 But to love he was a stranger
 Falling in love was his only flaw
 They call him the Lonely Ranger
 With the bandits he took on them all
 To him no one was above the law
 He chases outlaws, caught everyone
 He never quit till his job was done
 All the towns' people and the Indians
 And his sidekick and horse were his friends
 Still he felt empty, lost and all alone
 With days getting longer, nights grew cold
 She entered his life like a cloud of dust
 His only smile, his only love
 She said forever but he'd soon regret
 She soon left him as the sun sets
 After bank robbers, showdowns and shoot-outs
 Showing them all what the law was about
 He thought he found what he was looking for
 But he's still alone just like before
 Under the mask was silent sadness
 High Ol silver was his only happiness

Tailgater

Well she's a clean machine
 Lord knows she's fast
 She purrs like a dream
 I think she's gonna pass
 She's got a sleek hard body
 Her luscious top is down
 Her curves are so naughty
 And she's low to the ground

CHORUS

Tailgater- Bet she burns rubber in all four gears
 Tailgater- If she stripped 'em she'd lose her rear
 Tailgater- Yes she could blow my engine
 So I think I'll let her pass
 I can see her in my mirror
 Wish she'd get off my...gas
 Tailgater, tailgater, I wish I could see her later
 Tailgater

A hot Mama and she sure is fine
 Bet that girl could stop on a dime
 As our bumpers became one
 I blinked and then she was gone
 I remember her headlights-N-Her high beams
 And what a set of headlights they were
 I drove all night and it seems
 That I could never catch up with her

CHORUS

I wish I was her mechanic
 Love to check under her hood
 I'd adjust her carburetor
 And set her timing for good
 I'd love to feel her power
 Maybe take her for a spin
 But I'd settle for a cold shower
 Because she'll never pass me again

CHORUS

Put Your Heart Where Your Mouth Is

CHORUS

Put your heart where your mouth is
 Or is it talk and no action
 Put your heart where your mouth is
 I'm looking for satisfaction
 Baby, baby has a lot to say
 But there is a price to pay
 So trust me with your heart
 Or it's all gonna fall apart
 If you're looking for a man
 I won't be a one-night stand
 If you want beauty within
 I'll not be living in sin

CHORUS

If your words as good as gold
 Then forever I will hold
 Don't bother and try to lie
 Don't even waste my time
 I don't like playin' games
 Get it straight so there's no blame
 Don't want a love that will die
 Life's too short for me to cry

CHORUS

She Said

CHORUS

She said why are you wasting your precious time
 Let me help you take her off of your mind
 Why do you try so hard that it hurts?
 Honey, I would not treat you like dirt
 Wouldn't you want someone that cares?
 Aren't you tired from crying all those tears?
 Why do you want what you can't have?
 Just so you know, I'd never treat you like that
 Never thought rebound could look so good
 Never imagined I could feel like I should
 And if anyone could help me, she could
 And she did it just liked I hoped she would
 She said my love has long been dead
 And it's time that I give it a rest
 She said; get her out of my head
 Then she looked me in the eyes and she said...

CHORUS

It's been too long since I've held someone
 Forgot what it's like to just have some fun
 Been too long since I've felt this way
 Forgot what a kiss tasted like until today
 She said she would like a chance
 With my heart and a new romance
 She said that she knows we've just met
 Then she took me by the hand and she said...

CHORUS

I went through so much misery
 But now I'm in good company
 I am tempted to leave my sorrow
 And wake up with HER tomorrow
 I guess it's time to leave yesterday
 And I like all that she has to say
 She said it's time for me to forget
 Then she took me in her arms
 And she said...

CHORUS

Checkmate

Love is just a game
 No one showed me the rules
 But at least I got to play
 But I played the Kings' fool
 Tried to capture my opponent's heart
 And make her my Queen
 Sometimes I was her pawn,
 Sometimes I was her King

CHORUS

Checkmate
 Another vicious attack
 She's got me cornered and trapped
 I'd settle for a stalemate
 But I made my move too late
 Checkmate
 She's got combined powers
 Of the Bishop and Rook
 She destroyed my Castle
 And that ain't all she took
 She took me out of the game
 She wasn't playing fair
 She took this Knight's name
 And pushed me back a square

CHORUS

I Don't Believe In Love

I'll make it, even make fun of it
 But I don't believe in love
 You tell me I don't know what love is
 But how do I know if you won't show me
 Seeing is believing and I don't believe in love
 All my life I've heard the words, I love you
 Now everyone I've heard it from is gone
 So no, I don't believe in love
 How do I love someone if I don't love myself?
 How do I love myself if I don't believe in love?
 Love is loneliness and hurt, is there a different
 Definition, please, please tell me
 I'll hear you out but I won't listen
 Because I don't believe in love
 What's left of my heart is stubborn
 And it's still searching for love
 But what is left of my mind is saying
 That action speaks louder than words
 This brings me back to once again
 I don't believe in love and maybe if
 I just keep repeating it over and over
 Love will turn into something more
 Than a four lettered word or hurt
 Or just a chase or a passing thing
 Because I don't believe in love

Doin' It Right

CHORUS

Doin' it right, takes a little longer
 Doin' it right, makes so much stronger
 Doin' it right, yeah once is all it takes
 Doin' it right, leaves no room for mistakes
 This brings me to the issue of wanting to
 Be able to, be doin' it right with you
 Everyone has a problem of not going all the way
 The only way to solve 'em, prevent them in the first place
 To be the best that you can be, and honest and true
 Just try and understand and make it work for you

CHORUS

You could give as well as take, and be a step ahead
 Yes hard work always pays so always be positive
 Know what is wrong and right, and try to be patient
 If you hold on very tight, it'll work out in the end

CHORUS

Scarred For Life

Staring at pictures, thinking of you
 Just photographs, pictures in my mind
 I don't think I could ever get used to
 Or ever get over you in time
 Don't think I'll ever understand
 No matter how hard I may try
 All the things you did to this man
 Now I'm marked and scarred for life

CHORUS

Yeah scarred for life, that's what I am
 All I do is cry; I'm only half a man
 With only half a mind I do what I can
 Yeah scarred for life, and she doesn't give a damn
 I don't do much during the day time
 I even do less when it turns night
 And I think that it's a crime
 Of how you were and now you're not mine
 So I'll see you in dwell, the next time
 'Cause I'm marked and scarred for life

My Yellow Rose of Texas

My yellow rose of Texas
 Is hotter than the Texas' sun
 Her long blonde hair and smile
 Could just 'bout melt anyone
 Her heart's as big as Texas
 And her legs go on forever
 Yes she's my Southern Bell
 And we'll always be together
 My yellow Rose of Texas
 Sometimes makes this cowboy blue
 She knows which buttons to push
 When she tries to get through
 Her love is for me and Texas
 We keep her tickled pink
 Her eyes are a lovely brown
 She means the world to me
 My yellow rose of Texas
 Came along like a blue moon
 And though she could do better
 I know her love is true
 Her home is here in Texas
 Her place is by my side
 I know her heart is of gold
 And she's the holder of mine
 My yellow rose of Texas
 Makes everything just rosy
 Sometimes it gets red-hot
 She can be warm and cozy
 She won't leave me or Texas
 She would never even try
 Cause we're so close to Heaven
 We'd never say goodbye
 My yellow rose of Texas
 Still drinks when I turn green
 And in the black of midnight
 I never miss a thing

It Doesn't Get Any Better Than This

When you're in my arms
 When you're on my mind
 There is nothing wrong
 Everything is just fine
 You're a part of my life
 I'm glad I didn't miss
 And it just doesn't get
 Any better than this

CHORUS

No it doesn't get any better than this
 When you're in love and have your happiness
 Honey, we don't have it all but what's the difference
 When it just doesn't get any better than this
 When I think of you
 And by the end of the day
 You know just what to do
 And you know what to say
 All the love you give
 I feel it in your kiss
 Honey, it doesn't get
 Any better than this

CHORUS

Sitting on the couch
 As close as we can be
 Dogs run through the house
 While we watch TV
 Wanting to make love
 Wanting to feel your touch
 As we hug and become one
 It all comes down to this

CHORUS

Just Ain't Right

Is this for the good times?
 That we're here together tonight
 And will you put me through
 One more goodbye
 I don't care about tomorrow
 Or problems that are out of sight
 You know how I feel baby
 But it just ain't right
 Will you hold it against me?
 If I've loved you a bit too long
 And as I hold you in my arms
 We both know that it's wrong
 I don't care about tomorrow
 Or if I'm running out of time
 You know that my love is real
 But it just ain't right
 This might sound selfish
 But I hope you're as lonely as me
 If only it could be right for us
 But it wasn't meant to be
 I still don't care about tomorrow
 Or feelings that I might hide
 Know that our bond is like steel
 But it just ain't right
 Even when we're together
 We're a million miles apart
 This could go on forever
 If we listen to our hearts
 Well I don't care about tomorrow
 Or dreams that won't come true
 You're always in my heart
 And you know I'll always love you
 But it just ain't right
 And it's not right to hold each other back
 Or to keep pulling each other under
 No it's not right; we both know where we stand
 But you can't have lightning without thunder
 Feels so good but it ain't right
 If only we could, but it just ain't right

In Reality

Make no mistake, there's no misunderstanding
 I know where you've been
 And I know what you're planning
 Do you really think you can put one over on me?
 I guess in time we'll see
 I'm always a step or two in front of you
 I call all the shots
 There ain't anything, nothing you can do
 I'm gonna turn this depression into aggression
 Then I'm gonna take it out on you
 For in reality
 Anything or anyone can be replaced
 I don't need any formalities
 Not in this case
 So cut it to the wick, if it gets you sick
 You need to cut it some more
 When you're as cold as ice
 You turn me stone cold
 But you've been that way before
 Can you feel my thoughts?
 Can you read my mind?
 I just can't take this anymore
 Is it a lack of communication?
 Cause it sure ain't love suffocation
 Or are you just acting like a whore
 But in reality
 I was never one for playing games
 And in all this insanity
 I really think it's a shame
 That it's not working out, no one's giving in
 There is no compromise
 And no one is going to win
 It's past time you realize

Lust in the Dark

Girl you knock me out
 Sometimes you're such a tease
 The way you move about
 You bring me to my knees
 Don't have protection
 Against any rejection
 I'm just looking for a connection
 To your sweet affection
 C'mon Honey, I'm so tired of talking
 Had enough flirtation
 And I'm through with TV
 Take off your clothes
 And let's start ballin'
 I'm in need of a sensation
 That'll make my satisfaction guaranteed
 By the time you give a little
 It'll be a little bit too late
 Girl I'm only human
 Just so much I can take
 So prove that there is a heaven
 And open up your heart
 A lot of love is made with
 Lust in the dark
 CHORUS
 I'm your shadow; I'm lust in the dark
 Love's a battle; it's a state of art
 It doesn't matter; I'm not just after your heart
 And I'm your shadow; I'm lust in the dark (Like a second skin)
 Buzz to high-high to stone
 Stoned on you, flesh, blood and bone
 Body and mind-mind to soul
 Soul to heart-I lose control
 C'mon now girl, you're so phine (Fine)
 I have a fever that just won't quit
 So I'm gonna lay it all on the line
 Take it off, get me off, but I want the first lick
 We're a weird combination
 That starts a chain-reaction
 I'm sick of anticipation, I want some action
 CHORUS

I Love You So Much and Forever

So many butterflies in my stomach
 That I can't eat
 The fact that I lost you
 Won't let me sleep
 The lump in my throat
 Won't let me speak
 And the tears in my eyes
 So many I can't see
 And the pain in my chest
 Won't let me breathe
 But the wounds not open
 That I can't bleed
 But the hurts so bad
 That the wound is deep
 To know it's your heart
 That I can't keep

CHORUS

I love you so much, I love you forever
 When the world's too much I call out your name
 Your smile's enough to ease any pain
 I love you so much and forever
 You'll always be a part of me
 Even when we're not together
 I love you so much, I love you forever
 When I feel your touch
 I know what we have is special
 I love you so much and forever
 You'll always be the one for me
 Even when we're not together
 All the things in my head
 That I just can't think
 And the lack of shut eye
 Won't let me dream
 The fact I can't let go
 Won't let me believe
 For the rest of my life
 I'll be just a memory

CHORUS

She's Cheyenne and I am Too, Too Shy (The entire song)

There you stand, I walk your way
 My mind is racing for something to say
 I stop and smile, look like a fool
 Butterflies and my insides are in a duel
 I can't explain, I'm under your spell
 I can't complain, your perfume I smell [and swell]
 It's tantalizing and hypnotizing
 You're mesmerizing, my temps rising
 You walk by and I lose my voice
 My legs don't work, they don't have a choice
 So every day I lose my chance
 In every way for you and romance

CHORUS

She's Cheyenne and I am too, too shy
 She's Cheyenne and I am too, too shy
 Her soft hair, sexy voice, her angel eyes
 She's Cheyenne and I am too, too shy
 She's Cheyenne and I am too, too shy
 Tu eres esta muy Bonita
 Too, too shy for love and affection
 Scared of these feelings and rejection
 Brain freeze, having trouble breathing
 Hate to see you go, but I love to watch you leaving
 So I guess... same time tomorrow
 I will say your name or feel sorrow
 Ignited feelings that I can't ignore
 Tell myself, do something, can't take anymore
 My sweats go palmy, my weak goes knees
 My beat skips a heart, man I can't speak
 My trembling are hands, can't night at sleep
 Hyperventilating, gotta kool my keep

CHORUS

She's Cheyenne and I am too, too shy
 She's Cheyenne and I am too, too shy
 Her soft hair, sexy voice, her angel eyes

She's Cheyenne and I am too, too shy
 Her soft skin, her laugh, her lovin' smile
 She's Cheyenne and I am too, too shy
 She's Cheyenne and I am too, too shy
 Muy Linda Mamasita
 A lil' hazy in the hallway
 In slow motion she walks my way
 Calls my name so I walk over
 Not too close so she comes closer, and closer
 Reaches up and whispers in my ear
 Hey shy boy, all you do is stare
 Is there something else you wanna do?
 We could hold hands, maybe talk some too
 Is there someplace you wanna go?
 I don't believe in destiny ya know
 I know how you feel about me
 I feel the same now, say something
 And that's when I said... I said
 ChChChChChChCheyenne
 You're Cheyenne and I am too, too shy
 Your soft hair, sexy voice, your angel eyes
 You're Cheyenne and I am too, too shy
 Your soft skin, your laugh, your lovin' smile
 CHORUS
 She's Cheyenne and I am too, too shy
 She's Cheyenne and I am too, too shy
 Her soft hair, sexy voice, her angel eyes
 She's Cheyenne and I am too, too shy
 She's Cheyenne and I, etc.
 Fades out

Positively Negative

The street lights blow out
 As you drive underneath 'em
 And the light bulb sparks
 Whenever you flick the switch
 Full of static from the hate building within
 A handful of fingers are the count of your friends
 You have to put some color in your life
 You think everything is in black and white
 It is true lookin' at the sun will make you go blind
 But every shade of grey is where you hide
 CHORUS
 You're not afraid of death, you're afraid to live
 Polarize your life with you being so negative
 You're positively negative, you're positively negative
 Your sarcasms getting old and so are you
 Negativities got you singing the blues
 Try and smile, it'll hurt at first
 But only for a little while
 CHORUS

Just Ask Me About Ashley

Just ask me about Ashley
 And I will tell you again
 That the lady's with me
 Just ask me about Ashley
 I know what I like
 And I like what I see
 I love it when we hold hands
 And she tells me I'm her man
 Her heart's as big as Texas
 So don't you ever mess with...?
 CHORUS
 Ashley
 She's like an angel straight out of heaven
 But she's hell-bent on making me sin

We don't go to the same schools
 And she makes all the guys drool
 So just ask me about Ashley
 And like I told you before
 The fine lady is with me
 Just ask me about Ashley
 I see what I like
 And I like what I see
 So go ahead and ask me

CHORUS

Her hugs boil my blood
 Her kisses turn me into mud
 Her smile drives me wild
 And makes my heart skip a beat
 (Oh the heat) for just a little while
 (She's a hot-child)
 So just...

Lead

Bridge

So just ask me about Ashley
 Go ahead and ask me
 Just ask me, just ask me
 Go ahead and ask me
 Just ask me

Two-Sides

CHORUS

Two sides of a story
 Two sides of a coin
 Two sides of right
 And two sides of wrong
 Revenge is sweet and so is defiance
 Triumph or defeat, no room for alliance
 Talk can be cheap and so are intentions
 Sow what you reap goin' through transitions

CHORUS

No love lost in hate, it can last forever
 There's no debate, it's now or never
 Two-faced version of a two-headed lie
 Two-fisted battle and someone has to die

CHORUS

Cancer of the heart, just R.I.P. it apart
 Brought me to my knees just to watch me bleed
 Kill me now, do you wanna see me suffer
 Do it now, and then go back to your mother
 Two-timing back stabbing Bitch
 I know it's hard to swallow...

Swallow this

CHORUS

This Is My Last Song

Some more words and a few more lines
 But I swear that this is the last time
 I'm not going to write anymore
 Or play for you like I did before

CHORUS

This is my last song
 The music that was in me is gone
 You never listened anyways
 And I'm out of melodies
 This is my last song
 I'm not here to entertain
 You never heard me anyways
 No more love and no more pain
 A few more chords and a lil' rhythm
 It'll never happen again
 It's the last time I sing for you
 The beginning of the very end
 I hope you enjoyed all my songs
 I hope that I stay on your mind
 I hope you remember all of my love
 This is the last time, goodbye

C'mon Home

I know you're down and you need some time
 I hope you find that piece of mind
 But when you're cold and all alone
 Need someone to hold and call your own
 I know a place and I've got the time
 I think you know what you've left behind
 Know that I'll always be there for you
 You may have left but honey I'm not through
 And if you don't know what to do

CHORUS

C'mon home to a man that loves you
 Never places anything above you
 Who's always there, who will always care
 And has a life he wants you to share
 C'mon home to a man that needs you
 With a heart that would never leave you
 When you want a love that is true
 Or someone who'd do anything for you
 C'mon home my arms are still open
 I'll never quit and I keep on hopin'
 If you want to tango well it takes two
 I think my love can pull us through
 Just c'mon home...

It's been awhile since I've seen your smile
 The flame is gone but there's still a fire
 It'll never go out 'cause it keeps me warm
 If you need shelter from life's storm
 I know a place where you can go
 When you're feelin' fine or feelin' low
 Please don't turn me into a memory
 Once it's locked you might lose the key

CHORUS

Lost and Found

Shakespeare said it is better to have loved
 And lost than never to have loved at all
 I have a feeling he never loved
 Anyone before or ever had taken a fall
 I am talking from experience
 And finders-keepers doesn't mean a thing
 Yes that my friend is the difference
 Of the question to be or not to be

CHORUS

Lost and found in the same lifetime
 Lost what I wanted most out of life
 Found the freedom you were looking for
 Lost and found, you don't love me anymore
 At least when you never find your true love
 There is always hope, always the chance
 To always have the drive, to never give up
 Waiting for a day to find true romance
 To spend your whole life and find the one
 Finding Miss. Right and find out you're wrong
 To have it all and one day find it gone
 Makes it impossible to go on

CHORUS

Just Blame It on Me

Baby it's over, just blame it on me
 Even though it was you who wanted to leave
 You can tell your friends I wanted it to end
 You make sure they see, just blame it on me
 Yes it is done, just blame it on me
 It was just for fun, make everyone believe
 Tell them you'll get along
 And I left you alone, that it's all my fault
 You make sure they see, just blame it on me

CHORUS

Just blame it on me, just blame it on me
 You tell your family, and just blame it on me
 You tell them that I was wrong, just blame it on me

You keep playing that song; yeah you do what you need
 Tell them it ain't easy, but at least I'm happy
 You make sure they see, just blame it on me
 CHORUS twice

Take it Like a Man

The water is too hot
 The water is too cold
 Feeling kind of young
 Or feeling really old
 You've made your bed
 Better understand and make a stand
 And take it like a man
 Promises to break
 Live to make mistakes
 You want it and eat it too
 Life is not a piece of cake
 Whether it is a crime
 Whether it is a sin
 You can't ease your mind
 Because in the end
 What comes around goes around
 What goes up must come down
 You've got to take it like a man
 It's not whether you win or lose
 It's how you play the game
 But you break all the rules
 So let us call a spade a spade
 Life catches up and guilt sets in
 There'll be no one left to call friend
 You can run and you can hide
 But when you take someone for a ride
 That's when the shit hits the fan
 No one's there to lend a hand
 You better understand and take a stand
 And take it like a man
 You've got to take it like a man
 I said take it like a man
 Take it like a man, so take it

Old Habits are hard to Break

Wake up in the mornin' and already
 Have the day planned out
 Gonna find the guys and party
 Hearty all day long
 And when we get together
 We'll party like it's forever
 We're all headed to no where
 And right and wrong we don't care
 CHORUS
 But when you start to think about it
 And you wonder what it's all about
 Don't you get tired of a monotonous song?
 There's got to be another way
 There's always room for change
 Old habits are hard to break
 There's got to be a better way
 No matter what your friends might say
 They're the ones pulling you under
 Yeah old habits are hard to break
 Don't you think it's past time that you
 Looked your mother in the eye
 You can't always spend your life
 Hiding in a house of cards and lies
 There's got to be a better way
 To get high, high, high on life
 You will see as life goes on
 Old habits are hard to break
 CHORUS

I Hate Myself

You tell me that you love me
 But you're not in love with me
 You tell me that you're sorry
 But not half as sorry as me
 If I control my destiny
 Then I am my worst enemy
 I can't let go of the past
 Or what I perceive as reality

CHORUS

I hate myself
 For letting you do what you did to me
 I hate myself
 For not opening my eyes long enough to see
 I hate myself
 For putting myself through this misery
 For all the time spent down on my knees
 And I hate myself
 For trusting, wanting, needing and loving
 Yes I'm as selfish as I can be
 For not wanting to be lonely
 I lost my cool and let myself go
 I'm a fool for chasing a dream
 Used to keep my feelings inside
 I never was one to sit and cry
 Never ever said what was on my mind
 Or laid it on that mirrored line
 I let you break my poor heart
 So why do I try so damn hard

CHORUS

You put me through so much
 Should've ended it at the start
 Been addicted to your touch
 Why is it every time?
 That I ever say I love you
 It's a prelude to a goodbye
 I hate myself for loving you
 I hate myself for loving you

Dump City

CHORUS

If you're feeling empty
 And if you feel the need
 You know where I'll be
 I'll be with the lonely
 Down in Dump City
 Like a worn out shoe
 Or a fish too small
 Like a glove gone bad
 You can give me a call
 In Dump City
 Like a car that won't start
 Or a waste of time
 Like some rotten luck
 You know the sun don't shine
 In Dump City
 If you have no place to go
 There's always room for one more
 You won't feel out of place
 With other hearts that were torn
 In Dump City

CHORUS

You don't even need a map
 Just follow the trail of tears
 When you feel you can't go on
 That's when you know you're near
 Dump City

Lead

Like a dog that won't fetch
 Or a job that doesn't pay
 When you're feeling like trash
 You know where you can stay
 In Dump City
 Like a battery that's dead
 Or that tie from last year
 Maybe a book that's been read
 Or an empty bottle of beer
 You need to go to Dump City

CHORUS

Bitchin' Mama Blues

CHORUS

I got them bitchin, bitchin, bitchin' Mama Blues
 And I got everyone of them from you
 You criticize, never satisfied, you know it's true
 I got them bitchin', bitchin', bitchin' Mama Blues
 Yeah, I got them bitchin' Mama Blues
 You're like fingernails on the chalkboard
 I get sick to my stomach when I come home
 You nag so loud I can't hear myself think
 If you ain't bitchin' it just means you're asleep
 You gripe about the car so why don't you walk
 Not happy 'bout my money, all you ever do is talk

CHORUS

You go and spend my money before I even get paid
 Turn me off; don't have a shot so I never get laid
 A second job would mean that I'd never see ya
 More green for you but I'd still won't be free
 From your bitchin', your griping, or your nagging
 A nervous breakdown, a shakedown that I'm having
 And those times you say that you wish I would die
 Well I got news for you honey, so do I, so do I

CHORUS

The problem is that I know what hell would be like
 It would be with you 24/7 all the time, fight after fight
 So I listen to your bitchin' that's all I ever, ever do
 Your lips were made for naggin' and you're so cruel
 They used to be for kissin' but all I hear is bitchin' from you
 I got them bitchin', bitchin', bitchin' Mama Blues
 And I got every single one of them from you

Lead & CHORUS

Johnson City Rocks

Well I don't drink and I don't smoke
 And I don't swear or tell dirty jokes
 I go to church and I do well in school
 Stay out of trouble cause Mama didn't raise any fool

Stay away from drugs and I think girls look pretty
 I love to rock-n-roll and I was born in Johnson City

CHORUS

Johnson City Rocks, yeah Johnson City Rocks
 I love rock-n-roll and Johnson City rocks
 I'm from the country and I walk with God
 And just like Johnson City I love to rock
 The names James Blonde, I've been 'round the block
 I have two dads and a mom and Johnson City rocks

CHORUS

I have a code yeah, and I walk the line
 I get straight 'A's to keep my mom satisfied

CHORUS

All I Need is Time

Well opinions are like ass-holes
 Yeah, everybody has got one
 They think they have the answers
 But not where I'm coming from
 They think they know what's best
 They think they're wise but they don't have a clue
 While they feint their interest
 They don't realize that I'm not listening
 And I'm so tired of all their bitching
 Wish everyone would stop trying to help
 I'm pretty sure I can get out of this myself
 Don't know how this happened in the first place
 Won't be the last time I'll have problems to face

CHORUS

All I need is time, all I need is time
 And I know that I'll make it through
 Like grains of sand in an hourglass
 Won't make the same mistakes of the past
 And I'm so tired of getting screwed
 Wish everyone would stop trying to help
 I know that history will repeat itself
 All I need is time, all I need is time
 All I need is time, just a little more time

Goodbye Cruel World

I'm at the bottom of no where
 I guess I've always been there
 But it's the closest thing to home
 I'm at the end of the line
 Not because I haven't been trying
 Guess I've always been on my own
 Life's been cruel with every chance
 With life in general and true romance
 There's no such thing when you're all alone
 I damn sure ain't looking for self-pity
 Just a change in destiny instead of cities
 Fed up with area codes and this twilight zone
 Been walking a thin line to the brink of misery
 Afraid of falling but mostly fearing reality
 Climbing the ladder of life from edge to edge
 Making it to the top to be pushed over the ledge
 Been up and down and all around, it's the same
 Four-lettered words like love, hurt, life, fair and hate
 When you stop and think about it, it all means pain
 I'm writing this letter in blood choosing my own fate
 Tired of holding on and working things out
 As my last breath leaves so will all the doubt
 Of living in a world with my burnt out existence
 I'm setting myself free from a worn out resistance
 I've had one friend I've loved enough to set free
 But now life goes on and it's my turn to leave
 Taken me literally all my life to make up my mind
 That I was afraid to live but not afraid to die
 Goodbye Cruel World

Don't Harsh My Mellow

CHORUS

Don't harsh my mellow
 I've needed this for so long
 Don't harsh my mellow
 Now I just want to be alone
 Don't be a buzz-kill or give me a head-ache
 Don't give me any hell for heaven's sake
 I want it dazed and confused until I crash
 If you're going to act like a butt-head, kiss my ash
 I know, yes I know that I should've said no
 Popping with alcohol and toking with blow
 But you know I need a vacation
 Got on the crazy train from the station

CHORUS

So don't harsh my mellow
 Feelin' this good can't be wrong
 No don't harsh my mellow
 I want my problems to be gone
 For just a little while
 How often do I smile?
 And how often do I laugh
 So don't give me any crap
 CHORUS

The Difference Between You and Me

CHORUS

Like black and white or like day and night
 The difference is plain to see
 That's the difference between you and me
 You want it all and I'm satisfied
 That's the difference between you and I
 I'm just a city boy and you're a country girl
 I only want you and you want the world
 I'm looking for love, you want your happiness

You're all I'm thinking of and that's the difference
 What's so different in all the time we spend in the end?
 When neither one of us find what we're looking for

CHORUS

Why can't we compromise and walk the line
 If we better spent our time you'd realize
 Your only need is want and my only want is need
 Yes that's the difference between you and me
 Just like a cat and dog or right and wrong
 The difference is plain to see with you and me
 Just like salt and pepper or always and never
 The difference is plain to see with you and me

CHORUS

The "Kirkie" Lullaby

It was a dark and stormy night
 Was the story of my life
 Feeling so empty inside
 Till the day I met my wife
 Still there were questions in my mind
 Of a universal kind
 Thought it take a lifetime
 For the answers I might find

CHORUS

Like who am I; I'm your Daddy
 What's my purpose; to give you love
 And is this all; it's all I'll ever need
 For I love you and Mommy does too
 It only took one question
 That being one and one is three
 The answer to any question
 For I was blind but now I see

CHORUS Twice

Spinal Bliss

She's a night stalker, dream walker
 She can pick it up, lick it up, and get me up
 She's a sweet talker, makes me a mother fu@#er
 She does this sit-up and then slowly gets up
 She makes me scream and then I shut-up

CHORUS

Spinal bliss- she's a toy maker, ball-breaker
 She makes it tight then she loosens it up
 She's a love faker and a heart breaker
 She's like a cup of love and you just want to drink her up
 She's no devil in disguise, no fallen angel from heaven
 Play it forward 3, 4, 5, hey sex, backwards 9, 8, 7
 It's a quarter to four and I'm walkin' the floor
 A smile on my face for those keepin' score
 It was so pure it was euphoria's waste
 And I'm pretty sure that I got a taste

CHORUS

She's an hourglass; she's got the perfect ass
 She's got DQ lips and the perfect tits
 She makes me beg for those perfect legs
 Yeah she's spinal bliss and the perfect kiss
 She'd 86 me after I 69 her crimson and clover
 Over and over and over, spinal bliss

A. E. O. (Affectionate Ever-bitchin Opposite)

Well hey, hey AEO, AEO

CHORUS

You're never in the kitchen
 And I'm tired of your bitchin'
 You're always rearranging
 The only lip I want from you
 Is when I see the top of your head
 Because all you do is nag, nag, nag
 Nagity, nag, nag, nag me to death
 What we once had was beautiful

But your friends don't like me and it's mutual
AEO

CHORUS

You say that I drink too much
Well you think too much so just go
The price is getting too high
And it's not worth your touch, AE Ho
I am who I am, just a man
And I like who I am, understand

CHORUS 4X

Thank Goodness You're Not the Enemy

I guess the mailbox is broke
And the telephone doesn't work
The only thing I got going
Is a big can of hurt
A thousand miles and a
Big promise to myself
But it doesn't help, no it doesn't help

CHORUS

Thank goodness you're not the enemy
I see now that I'm the biggest fool I know
The pain still grows yes it still grows
Thank Goodness you're not the enemy
I fell in love with you
Now my life's in ruins
I don't know what to do
With this heart's pollution
Baby I gave you all of me
Now you say we can be friends
I lost everything, I mean everything
I'm so glad you're not the enemy

CHORUS

Pick Up the Phone

I've got this burnin' desire, it's a hunger
You know who this is, you got my number
Don't want to leave a message at the beep
What I have to say just can't be brief

CHORUS

Please, please, please pick up the phone
Honey I know you're home all alone
Please, please, please won't you pick up the phone
What needs to be said can't be sent in text
Besides you wouldn't read it you'd dismiss
I've thrown in the towel and hanging by a thread
Excuse me for lovin' but this needs to be said

CHORUS

You act like you have amnesia of the heart
There's a lot I'm not saying while we're apart
So if you're doing nothing let's do it together
Get past these pot-holes, speed bumps, and bad weather

CHORUS

I know your phone works it was just busy
Please pick up so that I can say I'm sorry

CHORUS

Powerage (Tribute to Ac/DC)

CHORUS

 Big balls, There's gonna be some rockin'
 Stand up, Snowballed, Bedlam in Belgium
 Touch too much, If you want blood you got it

 It was love at first sight, Dog eat dog
 Fly on the wall, Sink the pink, Who made who
 Love hungry man, Hells bells, Let there be rock
 The jack, Back in black, Can I sit next to you

CHORUS

Let's Get the Hell Out of Dodge

I'm just a has-been, just a used to be
 And they call me a never was
 That ain't ever going to be
 I think it's time to stop and give it all I got
 Yes I think it's time to stop
 Crosshairs and crossfire as I crisscross my heart
 I'm stealing from Peter just to pay Paul

CHORUS

Let's get the hell out of Dodge
 {It's just got to stop}
 Let's get the hell out of Dodge
 {It's just got to stop}
 Let's get the hell out of Dodge
 They say it's all for one, but it's one for all
 And since there's nothing nice to say
 I won't say anything, anything at all
 I'm at the world's bottom trying to get to the top
 But right now I'm in a hot-spot
 I ain't a pretty sight; I'm going out of my mind
 Did I just hear a knock, this place is getting hot

CHORUS

Lead

Can't go back to Mom, she calls me a cheeky sod
 Last thing I heard her say was tick tock
 Then she said getting, going, good and gone
 Down to my last dime and I'm running out of time
 The story of my life
 Black ice on top of thin ice, take my medicine
 Excuse me for living, she loves me she loves me not
 Ain't got a lot but what I got is in the damn garage

CHORUS

Vermin Woman Has Venom

Angus Ruckus has me by the throat
 And her venom has no antidote
 She teases me and wants to please me
 Must be a magnet she seems to be orbiting
 Take what you want, give nothing back
 That's her motto tattooed on her stack
 She's the main course, looks like I'm dessert
 Pelvic shuffle and it's a good hurt
 I'm hard she's wet, we give it up
 Now she's just struttin' her stuff
 She likes it tough, she likes it rough
 Oh this is so far from love

CHORUS

No butterfly and no little kitten
 I'm in lust and she is smitten
 Baby got back on the rectum scale
 She makes me holler, she makes me yell
 Given me lip and goin' up and down
 It feels as good as it goes all around
 She is from this town, this neighborhood
 Here we go again but she knew I could

CHORUS

Vermin woman has venom
 The vermin woman has venom
 Yes the vermin woman has the venom
 Vermin woman has the venom

Lead

Her jeans has holes so we took them off
 High heels bent over, I turned my head and coughed
 Hard-wet, give it up
 Well she's struttin' her stuff
 But this is so far from love

CHORUS Twice

KopyWright

You can draw the line
 I won't do the time
 I'm not sayin'
 You'll be on your own
 But what I am sayin' is
 Rock like a stone (Be made of stone)
 (A rolling stone)
 I want riches
 And I want fame
 And I want pleasure
 Instead of pain
 I'm a lover, don't like to fight
 And we are called KopyWright
 That's a kopy and a Wright
 We like it loud
 Up all the way
 And we don't open
 That's what we say
 We are lovers, we don't like to fight
 And you can call us KopyWright

Lead

Krikkit on the lead
 Ethan on the drums
 Steven on the bass
 Johnny on the rhythm
 We like to see
 Your hands in the air
 While we're playin'
 Get 'em way up there
 Now I'm sayin'
 Wave 'em to and fro
 Can you feel me?
 C'mon, c'mon let's go!

Lead

We come to your town
 This great big city

We know ya get down
 Cuz our music's pretty
 (Awesome)
 Drums, drums, bass-Drums bass rhythm
 Everyone
 Drums, drums, bass-drums, bass, rhythm
 We are lovers, we don't fight
 But we will, fight for our right
 And you can call us KopyWright
 That's kopy and a Wright
 Yeah you can call us KopyWright
 Lead

Se La Vi

My baby left me
 She took her bunny-slippers too
 I guess that means
 She's on her way back to you
 Well caesura, sera
 And se la vi
 Baby maybe I have flaws
 But se la vie, wee wee
 She didn't trust me
 Not for anything I've done
 This is what I believe
 Guilty conscious for all her fun
 CHORUS
 Que caesura sera, what it is, is what it will be
 And shit happens ah, ah, awe se la VI
 Ah mi Sherri Susan le petite flouer
 Pero adios, aloha, goodbye y bon sjeur
 Her jig is up like my fly's always been
 And now she's throwin' round accusations
 Ah mi Sherri Susan la petite flouer
 Because of her I'm down to my last euro
 Pretty woman walkin' by
 She watches me to see if I see

So now we don't talk, why?
 She left her senses, she left me
 But I swear I'm innocent
 She didn't trust me so she went
 Caesura Sera, what it is, is what it will be
 CHORUS
 She's jealous and over-zealous
 She's been cheating all along
 But I forgive her wantin' to live with her
 But now she's gone, gone, gone!
 It's eating her up, so much for love
 CHORUS
 Bridge
 Se la vie, se la vie, se la VI

Deaf, Dumb and Blind

No kid is safe, no kid left behind
 What the kids say, they can be so unkind
 Kids can be so cruel in the halls of school
 They think they're so cool, but they're just fools
 There is no excuse when they make their move
 But we have everything to lose us jesters fools
 We're the last in line, we stand divided
 We play in our mind we're deaf, dumb and blind
 CHORUS
 We're deaf, dumb and blind are how we spend our time
 And we hide behind being deaf, dumb and blind
 Yes deaf, dumb and blind when they play with our minds
 We never ask why, we're just deaf, dumb and blind
 Oh they know what's right, but they have lost sight
 They don't know what it's like and we don't want to fight
 But they don't hear us and they don't see us tear up
 Can't say what must be said under peer-pressure justice
 So the tainted youth are all the lying truth
 We are the same as you, but we are all mute
 CHORUS
 We're deaf, dumb and blind, we leave our friends behind

And we go and hide because we're deaf, dumb and blind
 We are all deaf, dumb and blind and there is no shelter
 And there is no helper; we're all deaf, dumb and blind
 It gets worse all the time; we can't seem to run fast
 enough
 There's never compromise when they're unwise and tough
 So we play deaf and we act blind, and we play dumb
 Yes it's all so dumb...

Lead

We're all God's children with so much we can take
 And every now and then we just need a break
 With deaf, dumb and blind, and so many worries
 So many bullies, they're deaf, dumb and blind
 Deaf, dumb and blind to all the cheer-leaders
 The geeks and the nerds, we're deaf, dumb and blind

CHORUS

Bridge

Deaf, dumb...and blind
 Deaf, dumb and...blind
 Here's to the future
 There's got to be more

Bros Before Doze

Did I forget to mention I wasn't paying attention?
 And I wasn't listening
 Here we go again, another sticky situation
 That I got myself into
 Started with a little flirtation
 And it meant so much to you
 I'm not sorry for being myself
 And I can't give you any kind of help
 Now we are both going through hell

CHORUS

Bros before doze, that wasn't a kiss from the heart
 Bros before doze, you knew this from the start
 Anything goes and I have to spend time with the band

It's who I am and it's what made you fall for this man
 Anything goes it's always bros before doze
 You cannot believe that you can fix me
 So go and leave screaming and kicking
 I am not a phase or just a state of mind
 Your attraction can't take a hint or a sign
 Your distraction does drive me crazy and wild
 Bros before doze, we're here to make music
 Anything goes you're getting sick and tired
 Bros before doze, the buck stops here
 So be a good doe and sit down there
 Bros before doze
 Bros before doze, it's not a game I'm playing
 Anything goes I won't blame you for staying
 Bros before doze, no it's not love I'm making
 Bros before doze, it is music I'm making

The Turtle

Protection for the universe
 It's a blessing and a curse
 Two Captains, their kids and their crew
 If you need help they're there for you
 Call on the Turtle when decisions need made
 The Turtle's always there and not just for humans sake
 Because there are aliens and they're not all good
 The Turtle will decide their fate, that's for sure
 It can fold space and go faster than light
 Spank Earth Defenses bottom without a fight

CHORUS

The Turtle, the Turtle, the Turtle
 Black holes or a super nova
 Here comes the Turtle
 S.O.S. and you need help
 Here comes the Turtle
 The Turtle, the Turtle, the Turtle
 Lead

It's got regenerating shields
 And a Quantum Thresh-hold to its bay
 All of the power that it yields
 Nano-technology to save the day
 Run by officers and space cadets 101
 They're not military, they're just civilians
 The Turtle, the Turtle, the Turtle
 Your planet's being over run
 By aliens that you can't stand
 The sun is going to explode
 Well it can take care of both of them
 The Turtle, the Turtle, the Turtle

CHORUS

If your ship gets sucked into a rift
 Time stands still in inertia's grip
 That's when the Turtle gets it
 Aliens treat man as cattle
 That's when the Turtle goes to battle
 The Turtle, the Turtle, the Turtle
 Lead

R. I. P.

I can feel a ripple in the still
 And I can sense a darkening chill
 I can feel the rage take over me
 One or both of us is out to kill
 I can feel anger deep inside
 Violence will ensue tonight
 Madness and a fury within me
 You won't bury me alive

CHORUS

R.I.P., Rest in pieces
 You're just a flesh-eater
 R.I.P., Rest in pieces
 You're just a man-eater
 I ain't sayin' a stake through my heart

Won't kill me, won't kill me
 Or a silver bullet through my head
 Won't kill me, won't kill me
 If you want to see me go up in smoke
 Ya need Holy-water, yeah, Holy-water

CHORUS

Lead

Bridge

Ashes to ashes and dust to dust
 Hopes and dreams died with our love

CHORUS

Me, Myself and I

No woman's possession and no man's pawn
 I ain't anybody's fool, only bow to one God
 Whoa me, myself and I, yeah I am who I am
 Free to choose my life, because I'm a man
 I don't give into fear, temptation's my game
 I lust life's pleasures, I don't tolerate pain
 I know what I want when I see what I like
 If I like what I see I say what's on my mind
 What you see is what you get, lookout for # 1
 I know when to stay and when to move on

CHORUS

Me, myself and I- that's who I depend on
 Me, myself and I, so I know who to blame
 Me, myself and I, there was a time once upon
 Me, myself and I, didn't even have a name

Lead

Me, myself and I, are no man's pawn
 Me myself and I, only bow to one God
 Me, myself and I- I am who I am
 Me, myself and I- because I'm a man

Amazing Grace

The face that launched a thousand tears
 Amazing Grace in your teddy with your teddy bear
 You turned me on and then you turned on me
 From Southern Bells to Hells Bells
 You want me to turn the other cheek
 Hells Bells and Southern Bells Amazing Grace
 Lookin' so innocent and sweet
 You act so cold and then you turn on the heat
 Do you wanna see me suffer?
 Do you wanna see me bleed?
 A face that is known for her smile
 But her legs go all the way to denial
 Her fever lasts for just a while
 Lying like it's going out of style
 All 'woman' in the body of a child
 Amazing Grace is a bit too wild
 Turn me down and then you turn me over
 Hells Bells and Southern Bells
 You treat me like the dog Rover
 Hells Bells and Southern Bells
 Cold hearted, cold blooded and frost bitten
 Deep freezing ice cube lickin'
 Amazing Grace

Girl Madness

Sunk by Sabrina, Penny for your thought
 Hurt by Angel when Carry got caught
 My best friend left with Autumn
 Conned by Connie and Brianna moved on
 Dawn left at Dusk, and I ain't seen June since August
 Poisoned by Honey and Cherri got lost
 Lost faith in Faith and Joan broke my heart
 Betted on Betty and she left with Eve
 Lost hope in Hope and Ashley burnt me

Knocked into Monday by Tuesday
 Jaded by Jodie and hurt by Jade
 Fell in love with Sharon-share a like
 Kelly and Kate say I'm no Mr. Right
 Sued by Susan, jacked by Jackie and Jill
 Left miserable by Jay and hurt by April
 Died over Diane but Grace was amazing
 Shucked by Cheryl and Tracey tricked me
 Oh Terry hurt me and Jerry got wise
 And Lucy lost me while Cookie cooked my goose
 Etc... So turn the page

Remember the Alamo

CHORUS

Remember the Alamo
 You may have won the battle
 But you won't win the war
 You might kick my ass but
 I'll keep coming back for more
 Just remember the Alamo
 No escape and no rescue
 Blue in the face no thanks to you
 Mixed feelings and mixed drinks
 Protests too much me thinks

CHORUS

Angels sing and bells are ringing
 Flash of reality, new day same feeling
 Put up or shut up, you can't win
 Sucker punched, here we go again
 Tennessee troubles for a red-neck woman
 Bootlegging barbed wired fencing
 Now it don't matter what she said
 Better call it quits, I can do this all day

CHORUS

I'd be Lying

I'm not afraid of dying
 I'm scared to death of living
 Without your love or us
 Why then do I keep giving?
 The truth of the matter is
 I still love you just like before
 And I'd be lying if I told you
 That I don't love you anymore
 I'd be lying if I told you
 That I'm over you for good
 I'd be lying if I told you
 Still doing the best I could
 I'd be lying-still crying
 And I'd be lying-still crying
 Thought that you were different
 There's nothing different about you
 Without your love or us
 What am I supposed to do?
 Can't hide my feelings
 My heart has a mind of its own
 And I'd be lying if I told you
 That I'd rather being alone

CHORUS

Baby maybe I guess its best
 I try to say nothing at all
 Without your love or us
 Nothing left but the fall
 It's over and now it's through
 God knows the truth still hurts
 But the day I stop loving you
 I'd be lying under six-feet of dirt

CHORUS

My Destiny

I have to let her grow
 Then I gotta let her go
 If she comes back
 Well then I'll know
 If she comes back to me
 It was meant to be
 She's not a fantasy
 She's my destiny
 My destiny with a thermal desire
 My destiny has a shade of fire
 A live wire that I admire
 And if I was a poet
 Then she would know it
 Because I know what to say
 She makes stars disappear
 As she sleeps on rainbows
 And she walks on clouds
 She's my destiny
 My destiny with a thermal desire
 My destiny has a shade of fire

You've Got Your Ways about You

You've got your ways about you
 You know you drive me mad
 You've got your ways about you
 A sugar mamma for a sugar dad
 You've got your ways about you
 You got it until you're done
 You've got your ways about you
 You act like you're the only one
 You've got your ways about you
 You know you drive me insane
 In a way you're like cocaine
 You've got your ways about you
 You know just what I like

You make love hurt, you make love bite
 Just like quicksand pulling me under
 Center of attention stealing thunder
 You've got your ways about you
 You've got your ways about you

Forever

The flame is gone, the fire is out, and the smoke has cleared
 But in the center of the ashes there is a piece of coal
 And in the middle of the coal there is a diamond
 I am your best-friend, and we are forever!
 You belong by my side and we belong together
 Rain falls from the sky and it fills up the oceans
 And then it runs up river and then down stream
 Then into a creek but in the middle of the creek
 There's a heart of gold like our love is priceless
 A once in a life time and twenty-four karat
 That is worth its weight and will shine forever
 Minutes to hours, days in to nights, weeks in to months
 It all adds up to eternity through time into forever
 Till time stands still, I will be your diamond
 I will appreciate in time with my heart of gold
 Year after year there will still be you and I
 Our love will last after we grow old into Forever

Fingers

They can be finger licking
 And they point out mistakes
 They may not be polite
 But they do what it takes
 Sometimes they can do the walking
 Or they can sign instead of talking
 They even help a blind man see
 Made for rings, counting and writing
 It shows whose number one
 Or for putting on protection
 Taking points off or putting them on

Throwing balls or pushing buttons
 For showing someone the moon
 Or making something go boom
 For calling someone that cares
 Feeling, touching or wiping tears
 Foreplay and this piggy stayed home
 Or pushing the controls on the remote
 Twirling pencils or even drumsticks
 Piano, guitar and making music
 Pulling triggers or just scratching
 Doing models, pointing or tapping
 Pumping gas or measuring drinks
 Petting, pouring or grabbing sheets
 Undo bras and feeding or grabbing
 Flipping pages, driving or distracting
 And don't forget this the most
 Father, Son and Holy Ghost

The Great War of Miami

Let me tell you a story about
 My brothers and I one day out
 From Tampa Bay to quarantine Miami
 Drove a van with a suitcase full of money
 Great idea cutting out the middle man
 To turn a hundred into a thousand
 It was dry of powder de blanco
 There was bullets flying round and round
 In the great war of Miami
 Ambush waiting set-up from the start
 It went wrong and Chewie took one in the arm
 With Dino shooting air and took one to his hair
 JR kept them at bay so Dallas could get away
 Dino made it to the van and he came back
 Dallas shot and called shotgun in the attack
 Then a bullet bounced off of the fender
 As they left where no cops would enter
 In the great war of Miami

The great war of Miami
 Lost the suitcase and pride far behind
 Now enemy lines in operation snow-blind
 In the Great War they came back empty
 In 1987 they barely survived with only their lives
 In the Great War of Miami
 In the Great War of Miami
 No one was safe in the numbers game
 Looking for an eight ball of a time
 Smoking crack and doing lines
 But they lost their very last dime
 In the Great War of Miami
 In the Great War of Miami
 So the moral to the story isn't glory
 When the demand is stronger than the need
 Sometimes you just got to smoke some weed

The August Air

Oh the August air
 It reminds me of the time at the cemetery
 Where we made love
 Or in the basement of the church
 Just like in detention at school
 And all the places we had naked bliss
 Like the parking lot at the concert for Kiss
 Even in your parent's bed
 Where you first gave me...love
 All the love that we shared
 In the August air
 I remember doing it in the swimming pool
 We made love like fools
 Like in the movie theater
 Yes all the love I gave her
 In the backyard with the stars above
 In the sleeping bag while she was looking up
 In the backseat of my car

Where we took it a bit too far
 Oh all the love that we shared
 In the August air, in the August air
 I'm reminded of doing it
 In the mall at the dressing room
 Where we made love
 On the back stage going Boom, Boom
 Oh girl you left me way too soon
 Like you had to go back to school
 Oh the August air, the August air

Cooties

Girl you wanna give me cooties
 You wanna, you wanna give me cooties
 I'm not immune to your beauty
 You make me so vulnerable
 I break down to your smile
 I'm a Scorpion, you're a Cancer
 Been carrying a torch for awhile
 Do you wanna give me cooties?
 Do you wanna, do you wanna
 Girl do you wanna give me cooties
 I'm allergic to your touch, break-out in want
 Give it up, give it up, and give it up
 Girl do you wanna give me cooties
 Know that I get sweat dreams at night
 Hot-n-wet dreams about your goodies
 Yeah I'm allergic to your touch
 Yes I've been carrying a torch
 I'm not immune to your beauty
 Girl do you wanna give me cooties
 I break out in rock to your booty
 And I break out to your hoochie
 Come on girl give me, give me, give me
 Girl do you wanna give me cooties

Old School

Whatever happened to acquiring a job?
 As long as you had a high school diploma
 Whatever happened to the day where
 Every label was made in America
 Whatever happened to all the old cars
 Where when something went wrong you could fix it
 Whatever happened to those old, old songs
 Where songs were sung about what the heart meant
 My Daddy always told me about being old school
 And just holding hands was really, really cool
 He said back then when you got into a fight

You didn't sued or go to jail that night
 Good and evil back then was in a different shape
 You do what you were told, there was no other way
 In old school there weren't any divorces
 You never went with the flow or feared police forces
 In old school you could say what was on your mind
 Now all of that and J.F.K is left so far behind
 Going to the movies didn't cost an arm and leg
 In old school going to a party meant more than a keg
 Wish I could go back in time and see what I'm missing
 But all I do with his stories is sit and listen
 To what it was before but now it isn't anymore
 So my Dad isn't a fool he is just old school
 Wish I was old school because my Dad is so cool

I Ain't That Guy

I got a chip on my shoulder
 Your Mamma on my back
 I've gone out with your sister
 And laid your best-friend out flat
 So Honey, I ain't that guy
 No I ain't that guy just look me in the eye
 I ain't that guy
 Dontcha look at me that way
 That longing in your eye
 Told you once before
 And I've told you twice
 So Honey, I ain't that guy
 You know I ain't that guy
 I ain't that guy
 I'm a bad influence
 Your Mamma's worst nightmare
 Yeah I'm a train wreck baby
 I don't care if it's fair
 Won't treat you like a lady
 So sooner or later
 You're going to hate me

Stay away and let me fly
 Honey no, I ain't that guy
 Don't think that way this time
 I just ain't that guy
 No I ain't that guy
 I ain't your Mr. Right
 No I ain't that guy
 I ain't that guy

I'm Going to Da Farm

Looks like I'm going to the farm
 No hesitation with my medication
 Took my vision to protect my arm
 And they're not big on meditation
 They know I'm always up to something
 Just a good for nothing know it all
 I'm a recipe for destruction
 Working' my jaw and someone makes the call

CHORUS

Oh hell, I'm going to da farm
 Oh well, blah, blah, wa, wa, no harm
 Oh shit, pricket, kick it, wicked, stick it
 "F" it, looks like I'm going to da farm
 In a rubber room back in anti-black
 Two-way mirror but they don't see what I see
 Ankles shackled, wrists locked in the back
 The way they act you'd think I was crazy
 Dr. Shaky with his needle bouncing
 Pretty sure Dr. Feelgood will shock me later
 All the demons I'll be denouncing
 Don't hate the game, I hate the player
 Looks like I'm going to da farm
 There ain't anything funny about that
 The shrink says I've hit some alarms
 The pills make me feel like the Cheshire cat
 Looks like I'm going to da farm
 I escaped before, I'll escape again

Use my intelligence and my charm
 It ain't so bad I've made some friends
 Don't you, don't you, bee-bee, bawba, bublia
 Doobley dee-n- I'm going to da farm

Lead

Hate my daze, lights out at night
 A fine line between light and dark fight
 Reality's like a double edged sword
 Life ain't cheap-n-my death I can't afford
 They commit me, they submit me
 And I shout hey let me out
 A body bag's looking good to me
 They hold me due to doubt
 Blood smeared walls pushing my reality
 Looks like I'm going to the farm

Virginity Lost

The whiskey wind blows the synthetic weeds
 To and fro as the vodka mountain seeds
 Down her fire-water into the river of lust
 And the tequila roads are winding like
 The worm not of the apple to be shared
 By the two alone in the Lunar's brisk air
 The music from my chariot hit us hard
 Like its headlights as soft as the blanket of fog
 With full moon and the help of Skynryd
 I laid her innocents naked to the bare ground
 No sound to my howl as she drank my blood
 Of no color with ecstasy no longer clothed
 My hands full of taste-buds least I forget
 Maybe my mouth full of fingertips caress
 Our hearts beat so loud it catches Mother Nature's ear
 It's the sound that sows the seed to virginity's past tense
 As we catch a chill we wrap around each other
 Halloween's breath covers us no longer boy-n-girl
 As we look into each other's eyes, those of lovers
 We feel changes not alone to us but also to the world

I turn off my dragon and take to the backseat
 Huddled in warmth from my release of her new found
 pearl
 We both gaze upward and see the velvet star-fleet
 Thankful of what was lost and found as we fell into a deep
 sleep
 Virginit's Lost, Virginit's Lost, Virginit's lost, etc...

Rest in Pieces

What's your poison and do you have demons
 Do you have crutches, have you stopped dreaming
 And will you make it through the night
 Will you make it through the day alright?
 R.I.P., rest in pieces
 Would you kill for a fix and die for a taste
 Your bad-habits are turning you to waste
 Your mind is touched from doing too much
 R.I.P., rest in piece, until life ceases
 When your body jumps out of its skin
 Just one more drop... please
 Just one more rock... please
 Can't keep doing this you just can't win
 Remember what it is like going without
 Jonesing, strung-out and DDTs, what's it all about
 So take a pill, it'll be alright
 Get your fill, just one more line
 R.I.P., rest in pieces
 Look into the mirror
 Those lines on your face, they're not yours
 See all the terror
 White lines of disgrace, but you still want more
 So drink it up and toké till it's gone
 Then crash and burn is left to come
 Will you make it through the night?
 Will you make it through the day alright?
 R.I.P., rest in pieces, R.I.P., rest in pieces

Pressroom Blues

Well we got paper, paper from eight-point to a hundred pounds
 And we got paper, paper-cuts all up and down (All up and down)
 If it ain't green and doesn't have a presidents face on it
 It means you can't spend it so we don't want it (No we don't want it)
 It's just something we got to do
 Hard to swallow and hard to chew
 Plain and simple, we got them pressroom blues
 Micro-meter, density, don't forget to turn the water off
 Jogging, register, and feeder-guide
 You know we love our job
 Side-guide, back-cylinder and our manual jacks
 Labels, time-sheets and job-orders
 With plenty of paper stacks
 We got them pressroom blues
 Yeah and we're paying our dues
 Working hard but the boss-man doesn't have a clue
 I am telling you the truth
 We all got them pressroom blues
 Open door policy but we're sweating our asses off
 International Standard Operation's world class job
 Quality, productivity with safety always being first
 Shipping and receiving and those damn paper clerks
 High risk, high priority, yeah every job is hot
 The man is making billions of dollars
 But he's using up all of us blue-collars
 Yeah we're paying our dues
 Working hard but the boss-man doesn't have a clue
 Now I'm telling you the truth
 We got them pressroom blues
 No eating or drinking and turn the music down
 My God, you have to go to the bathroom again
 Attitudes, C.S.R.s, plates and the customers
 Static, hickies, tolerances within standards
 Thunderstorm, lightening and the power goes out
 Boss is screaming, boss is shouting hey get the lead out
 You could say we're stressed and a lil' depressed

But we're doing our best chained to the press
 We got them pressroom blues
 Hard to swallow and harder to chew
 We got them pressroom blues
 We all got them pressroom
 Earplugs, safety glasses and all kinds of gloves
 Bindery, forklift, what it do is what it does
 Coating, ink, powder and chemicals that stink
 Pushing, backing up until we're on the brink
 Putting up, shutting up, and just trying to make a buck
 Farming out is barely putting gas in my old truck
 Steel toes, temps and inventory and job training
 Suggestion box, many meetings and fingering the blame
 Yeah fingering the blame
 We got them, we got them
 We all got them pressroom blues
 We got them, we got them
 We got them pressroom blues

I Heard the Fat lady Sing

Well its true opposites attract
 But our differences were too great
 And it's true yes it's a fact
 Distance between us feels the same
 Always thought we were meant to be
 And that our love would always last
 Till I saw the sun setting in the east
 That night when our two ships had passed
 And I heard the fat lady sing
 When my woman took off her ring
 Well I guess I don't mean a thing
 Since I heard the fat lady sing
 Can't let go, just can't walk away
 But how do you hold onto what's gone
 I don't know just what to say
 Without her everything is wrong

Never thought she'd leave me alone
 Never thought what we had would end
 Till I saw all the cows come home
 I guess my ship never came in
 Well it's over and it's done
 My baby took off and now she's gone
 And it is so hard to believe
 Till I Heard the fat lady sing

CHORUS

It ain't over until it's over
 I can't believe you are so cold
 I guess that hell has frozen over
 And donkeys fly or so I'm told
 Always thought we'd sail the world
 And that my ship would never sink
 Also thought you'd stay my girl
 Till I heard the fat lady sing
 Can't believe she walked out on me
 Till I heard the fat lady sing
 I can't believe she'd leave me
 Until I heard the fat lady sing

In My World

The four walls that you put up
 They keep me and my love out
 I don't exist in your world
 But you're what my world's about
 So my walls are just as high
 As the ones that you put up
 Though it keeps out the sunshine
 It keeps in all of your love
 It's just my imagination
 Instead of pain or a tear
 Desperation in separation
 Pretending that you're still here
 Though my world is far from real

It still keeps you near to me
 And with the way that I feel
 To me it's more than just a dream

CHORUS

Yes in my world
 I still hear bells off in the distance
 And in my world
 I still see fireworks in the sky
 Oh in my world
 I still feel the taste of your kiss
 But in my world
 I steal your love and STOP... All of time
 In your world I am so lonely
 But in mine I'm still your one and only
 My walls reach up to the sky
 From hurt that's built up inside
 Unlike your walls that I can't climb
 Mine still keeps me in your life
 Life means nothing without you
 And misery loves company
 Since my world's all about you
 I'll keep you in mine with me
 Don't want to hurt anymore
 And in my world I don't cry
 It's just four walls without a door
 Where your love for me won't die
 In your world I can't have you
 But in mine you were never lost
 In your world we are through
 In mine it is a bridge uncrossed

CHORUS

Will I Ever See You Again

They said Columbus couldn't find the new world
 They said the Berlin Wall would never come down
 They said man couldn't fly or touch the moon, girl
 And you said you'd never ever make me frown
 I wish I didn't wake up this morning
 And realize again that you are gone
 Takes everything I have to keep going
 But all I have won't last that long
 Now I'm bluer than the deepest ocean
 And I'm bluer than the sky above
 Bluer than the grass in Kentucky
 Bluer than blue from our love
 Don't have to hold you in my arms
 Don't even have to hold your hand
 Don't have to promise me tomorrow
 And I don't have to understand
 Just want to know, answer if you can
 Will I ever see you again?
 I need to know, answer if you can
 Will I ever see you again?

If You Could See Me Now

If you could see me now
 Tears would roll from your eyes
 But then you'd realize
 All the love I gave you
 The pain that you put me through
 If you could only see me now
 If you could see me now
 Some years after your good-bye
 Nothing has changed in my life
 You know how much you mean to me
 You're more than a memory
 If you could see me now
 It's a struggle everyday
 There's no will to survive

Ever since you went away
 I'm all that's left to keep our love alive
 If you could only see me now
 I can't take it anymore
 At times I want to write
 Or just pick up the phone
 But it would hurt and be a waste of time
 If you could only see me now
 If you could see me now
 Your tears would fall like rain
 You'd feel some of the pain
 All the daze of living hell
 If you could only see me now
 If you could see me now
 Your heart would tear in two
 Like mine did because of you
 You'd hold me for awhile
 To see if you could smile
 If you could only, if you could only
 See me now
 You're all I'm dreaming of
 You're all I'm thinking of
 But it's just not enough
 I miss our love, I miss our love
 If you could only see me now.

She's Not Alcohol

She's not alcohol but she's intoxicating
 She tastes great and she's less filling
 She's got a round glass and I sure do love her ice
 I got a fifty-fifty chance that I'll remember tonight
 I'm under her influence so I had better not drive
 She keeps me from seeing straight and I don't need a D.U.I.
 She is a hundred proof; oh man she gets me high
 She's very addicting so I ask why ask why
 I'll turn myself in and let her hold me overnight
 I'm guaranteed a hangover whether it's dark or light
 Don't know about her ingredients

Whether she's brewed or stilled
 So I'll head for the mountains
 And do the bush until I get filled
 No more on the wagon because I like to liquor
 She knows I like a little head
 But she says whiskeys quicker
 I don't want to pass out
 And I don't want her to leave
 Because I don't think that I could handle
 Cold turkey and the D, D, Tees

Tennessee and Me

Have you ever seen a Tennessee Sky?
 While the moon shines so bright
 In the middle of the night
 Have you ever wondered if you cross my mind?
 Watauga Lake is oh so clear
 When you feel the Tennessee chill
 Cutting through the foggy air
 Do you ever wonder if I wish you were here?

CHORUS

Virginia's for lovers, let's prove them wrong
 I want you back here in my open arms
 Come and visit Tenn. And me
 We'll have a good time, I'll show you around
 I'm tired of missing you so come on down
 Come and visit Tenn. And me
 There's a place where you can touch the sky
 Way up in the clouds way up high
 Top of Roan Mountain is for you and I
 Or take the back-roads for a Sunday drive
 Don't let our last kiss be our last kiss
 Oh Darling, if I had just one wish
 I love it here and I love you too
 And It would be nice if I could have both of you
 I wish I could hold you every night
 Tenn. And me, we'll show you the light
 Come and visit Tennessee And me

Shadow of Doubt

Well the verdict was in when you said you do
 You've been lying ever since and I didn't have a clue
 Now I'm pleading for my heart that's going without
 You lied from the start in my shadow of doubt

CHORUS

Shadow of doubt, made a prisoner of me
 Shadow of doubt has found you guilty
 Now it's a life-sentence with your lies of pretense
 Reasonable cause left out in my shadow of doubt
 There's evidence to support, you loved me at first
 Now here we are in court suing for all the hurt
 I'm the one condemned, that's what solitaire is about
 Now I'm held in contempt in my shadow of doubt

Ain't It Funny

I met a woman in Indiana
 And I fell in love with her smile
 She said she met me on the rebound
 So I only lasted a little while
 She packed my things and said goodbye
 I guess I didn't mean a thing
 She pushed me out of her life
 So I drove to Texas but ended up in Tennessee

CHORUS

Ain't it funny how things work out
 But it ain't no laughing matter
 Guess you just have to look out
 For things that might shatter
 Ain't it funny how life goes on
 When it doesn't matter anyway
 When the one you love is gone
 And there's nothing to say save ain't it funny
 I met a woman in Tennessee
 Said that she was from Alabama
 Poor girl fell in love with me

But my heart's still in Indiana
 So she packed my things and said goodbye
 She left and went to Louisiana
 So I headed back to Indiana
 I arrived and looked for my baby
 But she wasn't a round for me to see
 She gone to Texas looking for me
 Later our paths crossed in Kentucky

CHORUS

But I found out she wasn't the one I love
 So I left and moved to Alabama
 But the girl I was thinking of
 Was living in Louisiana
 And ain't it funny...

Wake Up and Smell the Roses

Even when you didn't want me to be
 I know you always thought that I'd be there
 But you say that you don't love me
 It gets harder year after year
 You still try hard not to show it
 It's time to wake up and smell the roses
 Every single rose has its thorn
 And you're the biggest thorn in my life
 There is plenty of fish in the ocean
 Whose love won't cut like a knife
 I'll break these chains that bind me and set myself free
 And find that someone who wants to be with me
 You used to laugh at my jokes
 And you smiled when you sat in my lap
 But now it feels like I love a ghost
 It's gone too far to turn your back
 Our family and friends all know this
 Time to wake up and smell the roses

Feed a Cold and Starve a Fever

CHORUS

You've got to feed a cold, starve a fever, baby
 That's what I'm told if I want to keep her
 So I keep feeding her all the love I've got
 While my temperature is getting hot
 I'm there for her to hold and I need her
 You've got to feed a cold and starve a fever
 My temperature is starting to rise
 My love for her will keep it high
 I'll be her chicken soup she'll be my aspirin
 And I'll give her a call in the morning
 I know she's not feeling that well
 Now I have a terrible chill
 She needs plenty of rest
 I am hungry for her promises
 When this is over she'll be alright
 Without her my fever will climb
 She doesn't want all the love I give her
 Goes to show, feed a cold and starve a fever
 She hasn't gotten any better yet
 I feed her all the love I can give
 I still think love is the remedy
 She's got the cure for what ails me
 You've got to feed a cold and starve a fever

Borrowed Time

My woman just told me, she'd rather be apart
 Out of the blue she knew it was breaking my heart
 I said some stupid things and lately I've yelled
 I just can't believe she left me in this hell
 Someone asked me if I just lost my best friend
 Well it's true and now my world is at an end
 Normally I'm seen with a Wal-Mart smile
 But Lately I've been living on borrowed time
 Borrowed time is the only time I have

For her to maybe change her mind
 Borrowed time isn't near enough time
 For all the love that's on the line
 So until the day when she says
 That it's over and goodbye
 I'll smile and be thankful...
 For borrowed time
 Our love is dying don't know when, how or why
 So I'll do what it takes to keep it alive
 If there's a will then there's a way
 And to hell with my pride
 I see my wife passing right before my eyes
 I've got a boy now, in his terrible twos
 Oh dear Lord help me, I've so much to lose
 It's killing me why can't she see I'm out of my mind
 All the while living on... Borrowed time
 And borrowed time is all the time I have
 For her to maybe change her mind
 And borrowed time isn't enough time
 For all the love that's on the line
 So until the day when she will say
 That it's over and goodbye
 I'll smile and be thankful...
 For borrowed time
 Yes I'll smile and I'll be grateful
 For borrowed time

Never Ever

You only want what you can't have
 And when you get it you don't want it anymore
 It takes a lot to understand
 What's going through that pretty head of yours
 I know I'm not your idea of a man
 But you'll never ever find a love so true
 It's not my fault you took off and ran
 But my love will never ever run out on you

You think it's over but you'll never ever get over me
 Your acting colder only brings out my heat
 I know you're thinking of me and I of you
 When you leave a part of me will be leaving too

CHORUS

I'll never ever let our love die
 I'll do what it takes to keep it alive
 And even when I'm not with you
 I'm still right by your side
 And I'll be in your dreams
 When you're asleep late at night
 And when you're lonely
 I'm in the depths of your mind
 In every other teardrop
 Every single time you cry
 When you ever need me, you know where I'll be
 All by my lonesome right where you left me
 If you ever want me, you know what to do
 I'll always be there, be there waiting for you
 If you ever loved me give me back my wife
 If you ever loved me give me back my wife
 I've said and done everything there is to say and do
 I've always said that you could do better
 But you'll never ever find a love so true

CHORUS

You'll try to forget but you can't forget about me
 You'll live with it but can't live without me
 You'll try to pretend that everything is right
 But I'll never ever, never ever let our love die

Me Neither

Do you recall our wedding day?
 And remember the love we shared
 Do you miss the plans we made
 And how much we really cared
 Are you sorry that we're through?

And do you think of me at all
 Do you wonder if I miss you?
 Or get the urge to want to call
 Me neither, whoa me neither
 There's no more hurt or pain
 Do you lie awake late at night?
 And do you ever toss and turn
 Do the tears fall from your eyes?
 Does my absence make your heart burn?
 Do you wonder if there is someone new?
 Am I always on your mind?
 Do you wonder if I think of you?
 Or wish we never said goodbye
 Me neither, whoa me neither
 Some things will never change
 Do you believe me?
 Me neither, whoa me neither

Lightning Strikes Twice

From a one night stand till eternity
 Your bolt zeroed in on me
 Through flesh and straight to the heart
 You know you bring me ecstasy
 As the clouds stir you come right through
 Dancing in the sky the way that you do
 There I am in the eye of the storm
 Can you see me reaching for you?

CHORUS

Lightning-lightning strikes
 Lightning strikes twice
 Lightning-lightning strikes
 Lightning strikes twice
 Lightning strikes at the highest point
 Can't get higher without your surge
 Starving for love and in need of your current
 Let's get this high voltage feeling to merge

Just to Love Her Again

Being single ain't what it's cracked up to be
 And I'm not as young as I used to be
 Pretending I'm someone else is killing me
 Losing her can't compare to being free
 I'd trade it all for another chance
 Just to love her again
 People tell me I'm the lucky one
 That I have a second chance at life
 No kids and no bills and that I've
 Got it made without my wife
 I want to just love her again
 They seem to think that I'm better off
 With the pain that she put me through
 I wasn't the one that wanted out
 But this isn't what I can get used to
 I want to just love her again
 When I go out on the town at night
 I try to forget all about her
 I try hard to have a good time
 It ain't the same without her
 I want to just love her again
 I know she's fine and doing well
 I wonder if she ever thinks about me
 She really put me through hell
 When I loved her and she said
 That she loved me too
 I just want to love her again

Between Love and Hate

I remember getting married
 Couldn't afford a honeymoon
 It was just as much your idea
 You didn't hesitate to say I do
 I guess you don't any more
 Maybe it was just a dream
 But dreams aren't real; they're smiles in the night
 And for some reason I can't sleep

CHORUS

There's a fine line between love and hate
 And girl you lied right to my face
 A fine line between love and hate
 You gave too little, you gave too late
 I did everything that I could do
 I gave one hundred percent
 Said everything that could've been said
 Was it a lie or was it just pretend
 Two thousand miles don't mean a thing
 While you still hold onto my heart
 Like the papers that say we're one
 And the promises you ripped apart
 God knows I've tried to hold on
 But what's to hold onto is gone
 Once our love was oh so great
 But you crossed that line, that very fine line
 Between love and hate
 I tried my best to keep you happy
 God knows I've tried everything
 But for all my trials and efforts
 It means about as much as this ring
 Don't think you cared or ever shed a tear
 Don't think you ever gave a damn
 All you did was open the door
 And say goodbye to a bitter man
 CHORUS

A Long Time Ago

My buddy Steve just got married
 It's only been a week or two
 But his wild days he can't bury
 The changes came way too soon
 My boss says his old lady messed up his life
 Says all she does is spend his money
 But I know right now he's not with his wife
 He spends his time chasing all the honeys
 My brother Bob says he wants a divorce
 Says he's tired of her nagging complaints
 Says he doesn't mind playing and paying support
 To get out of the pressures and the restraints
 I told them all there's only one thing I know
 I had lost what they had had a long time ago
 A long time ago, I had it all
 A long time ago, I took the fall
 A long time ago, I had everything
 A long time ago, I had a dream
 Now I'm empty and all alone
 But I still remember a long time ago
 Don't know what you got until it's gone
 But they say seeing is believing
 One day they too will be alone
 When they see their lives leaving
 Time is a terrible thing to waste
 When they find out they'll know
 The bitter end has a bitter taste
 Yes I already know from a long time ago

You're Already Gone

Wasn't the first time that you left me
 That I began to feel so blue
 Or the last time you told me
 When you said we were through
 No it was a long time ago
 I knew that I had lost you
 And I can't stand to lose you again
 But you do what you do what you have to do
 You always do...

CHORUS

If goodbye is all you have for me
 Don't even bother when you leave
 I have been all alone for so long
 So don't bother, you're already gone
 Now I'm running around in circles
 Going nowhere really, really fast
 The part of you that's still holding on
 I know it ain't going to last
 And the future I was looking for
 I know has already past
 Now you have all the answers
 But I won't ask, no I won't ask

CHORUS

My Woman Left

I wish my head was as empty as my bottle
 Like my heart's as empty as my gas tank
 So much flashing in my mind like reruns
 Can't eat, can't sleep, got no money in the bank
 My woman left, she left me, she is gone
 Went out on the town with my so-called friends
 Felt like David without his slingshot
 This is a nightmare that just won't end
 We called the call girls but I got caught
 My woman left, she left me, she is gone
 Passed out but as it happens I was drugged
 Took my cell-phone out and took some pictures
 Took my cash, credit cards, yeah I got mugged
 Got home to an empty house, it figures
 My woman left, she left me, she is gone

Tell Me

I lie here in the darkness with tears in my eye
 The love we made has gone away
 And it's breaking my heart
 Oh how I love you and long to tell you
 These words from my heart
 But you're not here and it's tearing me apart
 Another man has taken my world from me
 The emptiness that took your place still haunts me
 I gave you my world but it wasn't enough
 Now that you're leaving, all that's left is misery

CHORUS

Tell me how long will the tears keep falling
 You promised forever but all along you were lying
 Won't you please tell me, darling please, please tell me
 Whatever did I do to deserve this from you?
 Pictures on the wall show the times we've shared
 Your memory still lingers even though you're not here
 I'd give anything just to hold you
 Once again close to me
 But you're with him and it's killing me

CHORUS

Don't Change Your Mind

We've spent some time together
 It's like a dream when I'm with you
 Yes time may heal all others
 But I'm the exception to the rule
 I know that it's not too late
 So baby give me that smile
 I fear you slipping away
 So I'll hold on real tight
 Shattered pleasure and bits of pain
 Is all you'll see in my eyes
 That's if you feel this is a mistake
 And, or, if you say goodbye

CHORUS

Don't change your mind
 I still need you by my side
 Don't change your mind
 I still see love in your eyes
 Don't change your mind
 Aren't we worth another try?
 Don't change your mind
 Forever wasn't enough time
 As my mind starts to wonder
 Of you and things we used to do
 If absence makes the heart grow stronger
 Then that is what I have for you
 And if love's the best thing
 That never happens to me
 Guess I'll always be waiting
 For your love patiently
 If you could hold me real tight
 Let your heartbeat next to mine
 Let's keep what we have alive
 I don't ever want to hear goodbye

CHORUS

Holidaze

All my Christmases will be blue
 Because they won't be spent with you
 So there's no need to get a tree
 Santa won't bring you back to me
 I don't look forward to New Years
 It only brings me lonely tears
 At midnight on New Year's Eve
 The one you're kissing won't be me

CHORUS

Holidaze, they're not the same
 But there is one I celebrate
 Our anniversary, today
 Yeah I drink to forget the pain
 So I don't appreciate, Holidaze
 My Valentine's Day is a joke
 The day our love went up in smoke
 Even my Easter doesn't bring me hope
 Ever since the day my heart broke

CHORUS

There'll be no fireworks on the Fourth
 Since you told me you love me no more
 I don't feel like giving out a thing
 Like we used to on Halloween
 I don't feel like being thankful
 On Thanksgiving's Day I'm hateful
 On my birthday I'll turn thirty
 Many years without you and hurting

CHORUS

Don't feel happy, Merry or New
 All I know is I still love you
 Yes Holidaze don't mean a thing
 They just bring back old memories
 So I don't appreciate or celebrate Holidaze

CHORUS

Rebound Forever

It hurts to know that if you could do it all over
 The only thing you would change is me
 Was it so bad, my best and my all
 I just couldn't make you happy
 Guess the mail doesn't run any days
 Even though I know you won't write
 But I still check it every day
 So all is happy, me, myself and I
 When the telephone's ringing
 I know you won't even call
 But I pick it up anyways
 Hoping you will change it all
 I wake up every morning
 Knowing you won't be there
 But I get up anyways
 Hoping that you will still care
 When light hits the window at night
 Even though it is not you
 Still I hope it's you pulling in
 So those drive-byes make me blue
 When I see you in my dreams
 I know that it's not real
 But I never pinch myself
 To wake up to how I feel
 The world will still go on
 And though it is without you
 I pray someday you will come back
 And prove our love is true

CHORUS

I'm rebound forever and frozen in time
 Girl I swear I'll never get you off my mind
 Going through all these transitions
 Looking for all that I can find
 And that I'm rebound forever
 And I'm frozen in time

It's Not the End

Some say where there is a will there is a way
 Win or lose it is how you play the game
 Some say every cloud has a silver lining
 Chance and chose and some way I'll find it
 Some say two wrongs doesn't make a right
 And that it's greener on the other side
 Some say every dog will have its day
 And anything worth having doesn't come easy
 Some say there's a pot of gold at the end of the rainbow
 And now you say that you just want to be friends

CHORUS

I can't live without your loving me
 And you can't live with a lie
 To me forever is everything
 To you forever is a long, long time
 It's not the end of tomorrows
 And it's not the end of the line
 It's not the end of the world
 But it's the end of mine
 It's not the end of all sorrows
 It's not the end of all time
 It's not the end of the world
 But it's the end of mine

Meet Me Halfway

Each and every night is a lil' longer
 Than the one that came before
 When I listen to a sad song
 I know what I'm crying for
 The love inside burns so bright
 It keeps the tears coming in the night

CHORUS

Every day, every hour, every minute
 My every thought has you in it
 If you'd just look in my eyes
 You'd see the love and then you'd realize
 That tomorrow could be a brighter day

Just try, and meet me halfway
 Once again you're not here beside me
 And I know you won't be coming home
 But it's all the love you've given me
 That keeps me waiting by the phone
 Hoping one day it would ring
 It'd be you and you would say

CHORUS

Nada in the Bank

I have nada in the bank
 And there is no one I can blame
 Just trying to make a change
 But I have nada in the bank
 Tried to be an entrepreneur
 But it turned into manure
 Now no dime to my name
 Because I have nada in the bank
 I have nada in the bank
 And I think that it is a shame
 I've got hunger on the brain
 And it is driving me insane
 I have nada in the bank
 There is no one I can thank
 But myself and I'll be frank
 I have nada in the bank
 I have nada in the bank
 I wanted fortune and fame
 But it is just hunger pains
 Just like the hunger games
 I have nada in the bank
 Watched it all go down the drain
 Everything I had just sank
 Now I have nada in the bank
 No mula, dinero or mean green
 Cut down in my prime as I watched it all leave
 Now I have nada in the bank
 Nada as in no green, because I have nada in the bank

Red Herring

Where there is trouble and they need someone to blame
 Why then do I always hear them call my name?
 But being innocent is hard to prove when no one cares
 I'm always getting punished and it isn't fair
 Chaos isn't funny but it follows me around
 Kind of like a shadow that goes out of bounds
 When something goes wrong they point at me
 They've made their mind up that I'm guilty

CHORUS

But I didn't do it, I wasn't even there
 Someone is using me as a red herring
 A red herring that is right, a red herring
 My friends all turn their backs till there is no one left
 My family won't help; they act like they're deaf
 So here I am again it seems it never stops
 Always between hard places and rocks
 I cross my heart but never hope to die
 Even my girl won't look me in the eye
 I've run out of luck, I've run out of time
 Well excuse me if I don't have an alibi
 But I didn't do it, I wasn't even there
 Seems I'm being used as a red herring
 A red herring that is right, a red herring
 Don't look at me that way because I was framed
 Everyone is fishing but I didn't do a thing
 I didn't do it, I wasn't even there
 Seems I'm being used as a red herring
 A red herring that is right, a red herring

Cut It & Let It Rip

Cut it and let it rip, well I say cut it and let it rip
 Cut it and let it rip, and I say cut it and let it rip
 Since my baby took me off of the bottle
 Well now I say to you to hell with it
 Cut it and let it rip, take a coin and let it flip

She gives me heads or tails you know I win
 So I say cut it and let it rip, while my shoulders
 Carry a chip, so I say cut it, slice it, dice it
 And baby, cut it and let it rip (Let it rip)
 Cut it and let it rip, I may never be President
 Because I smoke it, hell we're all just seeds and stems
 I say cut it till the smoke thins, yeah cut it & let it rip

Cross That Line

We started out as total strangers
 Ours passing without us knowing
 That one day we'd become friends
 And our feelings will keep growing
 But we're scared to lose what we have
 So we sit across the room wondering

CHORUS

Should we take a step and cross that line
 Like we both have done so many times
 It is hard to say what is wrong or right
 Should we try again just one more time?
 Is this the right time to cross that line?
 We've both been lonely and painted blue
 All we really want is a love that is true
 We're tired of losing and getting hurt
 Being walked on and treated like dirt
 But in each other we just might find
 Motivation to cross that line

CHORUS

Fighting between maybe and might
 Staring at the ceiling one more night
 Friendship can add to the love we make
 But we can lose and our hearts will break
 So we spend our time wondering what to do
 But I want to let go and try to be with you

CHORUS

What You Mean to Me

I know I haven't let you hear
 The things you should have heard
 Don't think I haven't really tried
 To put my feelings into words
 To me you are my everything
 Much more than words can say
 But if you don't mind and have the time
 I'd like to try today...

CHORUS

If you really want to know
 Just what you mean to me
 Take a good look in my eyes
 And you will see everything
 You're my sunshine when it rains
 And my port in every storm
 You're the very air that I breathe
 And to you my love is sworn
 It has all started out when
 I first laid my eyes on you
 You were far more than
 Any dream that might be true
 Through all my days and
 And with each day I wake
 Through all my nights and
 With every breath I take

CHORUS

I've admired you from afar
 Your love's my guiding light
 Worshipped you from the start
 And grow weak when you smile
 You are my heart's flame
 It will burn eternally
 Now I have put it into words
 This is what you mean to me

CHORUS

The Least That You Can Do

Yes it is true I am nothing to you
 But to me I am something and if you knew
 All I am going through then you can do
 The least that you can do and Baby
 Maybe, shed a tear for me

CHORUS

Let me see you shed a tear
 Watch you taste the bitter-sweet
 Feel the pain year after year
 Then maybe you can do
 The least that you can do
 Maybe, shed a tear for me
 A time or two thought you loved me too
 Love is blind and cruel and so are you
 It is overdue so do the least that you can do
 Maybe, shed a tear for me
 Let me see you shed a tear
 And hear your heart skip a beat
 Try to wake from this nightmare
 Then maybe you can do the least that you can do
 And maybe, shed a tear for me

I'll Never Get Over You

It was a once in a lifetime
 The happiest day in my life
 Both our dads standing at our sides
 You took my name and became my wife
 We settled down in a small town
 Our old Buick got us around
 But nothing good lasts forever
 Now we're no longer together
 It was the middle of the night
 You decided to change your mind
 Wanted to go your separate way
 Tossed aside my name, oh the pain
 I tried to leave it all behind

But I can't get you off my mind
 Yes nothing good lasts forever
 And now we're no longer together

CHORUS

I'll never get over you
 I'll never stop feeling blue
 I'll never forget your smile
 Or the passion in your eyes
 I'll never forget yesterday
 Or how you threw it all away
 And I know that this is true
 I'll never get over you

I've Found the Love of a Lifetime

Each time I close my eyes your image appears in my mind
 Such a breathtaking sight, lovelier than any sunrise
 I've found a love of a lifetime

CHORUS

Let me get lost in your arms
 Each night as we lay down to sleep
 I'll hold you tight through the night
 And send you the sweetest of dreams
 And let my love keep you warm
 As you drift off to sleep
 For this time I've found the love of a lifetime
 Each time I look into your eyes
 I feel a love I can't deny
 And inside I feel a fire so bright
 Now that I've found the love of a lifetime

Heartbreaking Fool

CHORUS

I'm just a heartbreaking fool
 Never been serious with you
 When I hear you love me I'll be gone
 Because I'm a heartbreaking fool
 You've known me long enough to know me well
 And I love you is something I never tell
 When I feel you're too close to me
 I'll say back-up or set me free

CHORUS

Many girls have tried to tie me down
 But they notice that I'm not around
 I get away as quick as I can
 Because I am the heartbreaking man
 I've broken many hearts in my time
 And I'm not even in my prime
 I get away as quick as I can
 Because I'm a heartbreaking man

Second Chorus

I'm a heartbreaking fool
 Never got serious with you
 You say you love me and I'll be gone
 Because I'm a heartbreaking fool
